CHAPTER XXXIII.

APPEALS TO THE PRIVY COUNCIL.

10. (a) The appellant shall within four days from the date of the order declaring the appeal admitted file in the Account Department of the Registrar's office a draft of the index of all documents to be included in the transcript or printed record and a list of all other papers, documents and exhibits in the suit or appeal, to be excluded therefrom under paragraph (b) hereof or under Order XLV, Rule 7 (b) of the Code, together with a requisition for the settlement of the index by the Registrar and shall furnish copies thereof to the other parties.

(b) The Registrar, as well as the parties and their agents, shall endeavour to exclude from the record all documents (more particularly such as are merely formal) that are not relevant to the subject matter of the appeal, and generally, to reduce the bulk of the record as far as practicable, taking special care to avoid the duplication of documents

and the unnecessary repetition of headings and other formal parts of documents; but the documents omitted to be printed or copied shall be enumerated in a typewritten list to be transmitted with the record.

13. The transcript or printed record for the use of the Privy Council shall consist of Parts I and II in the same volume, each part having its own index, but both indices shall be placed at the beginning of the volume. The contents of Part I and Part II with their indices shall be the same as those of Part I and Part II, respectively, as set forth in Rules 11 and 12 of Chapter XXXII, except that Part I shall contain the following additional documents in the order shewn:—

- (1) The proceedings in the Appellate Court, if any.
- (2) Judgment of the Appellate Court.
- (3) Decree of the Appellate Court.
- (4) Application for leave to appeal to the Privy Council with the grounds of appeal and affidavits, etc.
- (5) Order on such application.
- (6) Order declaring appeal to Privy Council admitted.

The parties will be responsible for arranging the record in proper order for the Privy Council, and in difficult cases counsel may be asked to settle it.

15. After the index and list have been settled, a copy thereof, and where there has been no Paper-book used in the appeal from the Original Side, copies of the records set out in the index to the various parts shall, where the record is to be printed here, be made over to the appellant's attorney. The appellant's attorney shall then cause the record to be printed in accordance with the following directions:—

- (a) The Paper-book shall be printed in the form known as demy quarto, i.e., 54 cms (or 9 inches) in length and 42 cms (or 7 inches) in width.
- (b) The size of the paper used shall be such that the sheet when folded and trimmed shall be 11 inches long and 8½ inches wide.
- (c) The type to be used in the text shall be pica type, but long primer shall be used in printing accounts, tabular matters and notes.
- (d) The number of lines in each page of pica type shall be 47, or thereabouts, and every tenth line shall be numbered in the margin, i.e., the tenth line being numbered 10 and the second tenth line 20 and so on.
- (e) Each document shall have a heading which shall consist of the number of exhibit mark and the description of the document in the index, without the date.
- (f) Each document shall have a marginal note which shall be repeated on each page over which the document extends, viz.:—

PART I.

- (i) Where the case has been before more than one Court, the short name of the Court shall first appear. Where the case has been before only one Court, the name of the Court need not appear.
- (ii) The marginal note of the document shall then appear consisting of the number and the description of the document in the index, with the date, except in the case of oral evidence.
- (iii) In the case of oral evidence, "Plaintiff's evidence" or "Defendant's evidence" shall appear beneath the name of the Court, and then the marginal note consists of the number in the index and the witness's name, with "examination," "cross-examination" or "re-examination," as the case may be.

PART II.

The word "exhibits" shall first appear. The marginal note of the exhibit shall then appear consisting of the exhibit mark and the description of the document in the index, with the date.

(g) Each document in Part II shall be separately printed and paged at the foot of each page.

The extra fifty copies mentioned in rule 19 of Chapter XXXII may be utilised in Parts I and II for the use of the Privy Council, provided they comply with all the above-mentioned conditions.

16. Before the Paper-book is printed, the final or press proof thereof shall (unless otherwise directed by the Registrar) be brought into the Registrar's office for the purpose of being examined by the Examiner's department of the Original Side and being passed by the Registrar. The Registrar may call for one or more further proofs until he is satisfied that the order to print can be given. The press proof may be submitted for examination and passing in sections, provided the sections are in consecutive order. (The Court-fee for examining and passing such proof or proofs shall be payable out of the Rs. 400 or other moneys deposited pursuant to rule 5 of this Chapter.)

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Preliminary.

Short title, extent,
application and
commencement.

X of 1897.

(3) This section and sections 2, 17 and 18 shall come into force at once; and the Governor General in Council may, by notification in the *Gazette of India*, direct that the other provisions of this Act, or any provision thereof specified in the notification, shall come into force in respect of any High Court to which this Act applies on such date as he may by the notification appoint.

STATEMENT OF OBJECTS AND REASONS.

The recommendations of the Indian Bar Committee in regard to the constitution of Bar Councils and their functions are as follows:—

1. An all-India Bar or Council is impracticable. Statutory Bar Councils should, however, be established at Calcutta, Madras, Bombay, Allahabad, Patna and Rangoon, but provision should be made permitting the constitution of Councils at Lahore, Nagpur, Karachi and Lucknow here on. (Paragraphs 48 and 55.)

2. The Council should consist of 15 members, four of whom should be nominated by the High Court, including, where possible, the Advocate General or the Government Advocate and the Government Pleader. The remaining eleven, of whom six should be advocates of at least 10 years' standing, should be elected by advocates of the High Court, provided that in Calcutta and Bombay the High Courts should determine how many of the eleven should be advocates entitled to practise on the original side. The nominated members should ordinarily be advocates, but it should be left to the High Courts to nominate judges past and present. (Paragraphs 57 and 58.)

3. The first Councils should hold office for 3 years, the term of office of subsequent Councils being determined by rules to be framed by the Councils themselves. (Paragraph 57.)

4. A Bar Council should have power to make rules subject to the approval of the High Court in respect of the following matters:—

- (a) the qualifications, admission and certificates of proper persons to be advocates of the High Court,
- (b) the powers and duties of advocates,
- (c) the conduct of any examination which may be prescribed by it and the fees to be paid for appearing at the same,
- (d) legal education, including the delivery of lectures to students and the fees chargeable therefor,
- (e) matters relating to the discipline and professional conduct of advocates,
- (f) procedure and practice in cases falling within the disciplinary jurisdiction of the Council,
- (g) the method of holding elections of members of the Council and all matters incidental thereto,
- (h) the meetings of the Council, the quorum necessary for the transaction of business, the election of a President or other officer and the appointment of committees for special purposes,
- (i) the period for which a Council, after the first Council, should hold office and the filling of vacancies occurring between elections,
- (j) the terms on which advocates of another High Court may be permitted to appear occasionally in the High Court to which the Council is attached, and
- (k) any other matter prescribed by the High Court. (Paragraph 59.)

5. The rules regulating the election of the first Council and the filling of vacancies before rules are made by the Council should be made by the High Court, and it should be provided that no rules shall be made affecting the special provisions suggested for the original sides of the Calcutta and Bombay High Courts so long as those provisions remain in force. (Paragraph 59.)

6. A Bar Council should have power either of its own motion or on complaint or on a reference by the High Court to inquire into all matters of the kind referred to in sections 12 and 13 of the Legal Practitioners Act, 1879, breaches of rules and other improper conduct in which an advocate of the Court is concerned, and make a report to the High Court with a recommendation as to the action, if any, to be taken by the Court.

A Bar Council should also be entitled to be heard in any matter relating to the admission of an advocate or in support of any report made by it to the Court. (Paragraph 60.)

7. The existing disciplinary jurisdiction of the High Court should be maintained, but the Court should be bound before taking disciplinary action against an advocate, except in regard to contempt of court and the like, to refer the case to the Bar Council for inquiry and report. On receipt of a report from the Bar Council the Court should be empowered itself to make or require the Council to make further inquiry. At the request of a Bar Council or on its own motion a High Court should be authorised to order an inquiry to be held by a local court. (Paragraph 61.)

8. Provision should be made for procuring with the sanction of the court the attendance of witnesses and production of documents required by the Council for an inquiry, and witnesses should receive the same protection as when they give evidence before a court. (Paragraph 61.)

(The paragraphs referred to are paragraphs in the Report.)

The Government of India consulted local Governments and High Courts upon these recommendations. In certain respects it appeared necessary to amplify them and in some respects to modify them in the light of the views urged by the authorities consulted. It is intended that these recommendations with the amplifications and modifications should be given effect to by or under the Bill.

2. The Bill is intended also to carry out as far as possible the miscellaneous recommendations of the Committee :—

- (a) The ideal to be kept in view should be the appearance of different grades of legal practitioners so that ultimately there may be a single grade entitled to appear in all courts. At present the largest degree of unification possible should be effected. (Paragraph 17.)
- (b) In all High Courts a single grade of practitioners entitled to appear should be enrolled, to be called advocates (not barristers), the title of Court Vakils or Pleaders being abolished, and when special courts are maintained for admission to plead on the original side the only degree should be within that grade which shall consist of advocates entitled to appear on the original side and advocates not so entitled. (Paragraph 18.)
- (c) Advocates of one High Court should be entitled to practise in another High Court subject to conditions to be imposed by the Bar Council of the latter Court or by the Court where there is no Bar Council. (Paragraph 20.)
- (d) Where there is a compulsory dual agency system at present it should be allowed to continue. (Paragraph 26.)
- (e) The High Courts should retain their power to fix the amount payable by a party in respect of the fees of an adversary's legal practitioner. (Paragraph 61.)
- (f) Partnerships between legal practitioners should be permitted wherever all classes of legal practitioners are entitled to act as well as to appear and plead. (Paragraph 69.)
- (g) The High Courts, where this is not now permitted, should consider the advisability of allowing Indian barristers applying for enrolment as advocates to read with an approved Indian practitioner instead of reading in chambers in England, at least when it is shown that the individual cannot obtain entry in suitable chambers in England. (Paragraph 68.)

3. Incidentally it is intended that the provisions of the Bill and the rules which may be made under it shall, in regard to advocates entitled as of right to practise in the High Courts, replace the relevant provisions of the Legal Practitioners Act, the Bombay Pleader's Act and the Letters Patent of the various High Courts of Judicature as well as the rules made under those provisions. In regard to certain matters for which provision has not been made in the Bill it has however, been necessary to retain the residuary powers of the High Courts of Judicature under their Letters Patent.

In accordance with the recommendation of the Committee in paragraph 56 of their Report the enrolment and control of legal practitioners other than Advocates is left to the High Courts under the Legal Practitioners Act and the Bombay Pleader's Act as amended by the Bill.

4. The principal modifications of the Committee's recommendations which are contained in the Bill are as follows :—

- (a) the constitution of the Bar Councils differs slightly from the recommendations in that the Advocate General must be a member and the number of members to be elected is ten, instead of eleven ;
- (b) the rules regarding all elections of the Councils instead of only the election of the first Councils are to be made by the High Courts, the powers of the Councils in this respect being restricted to the making of bye-laws in regard to matters not provided for by the rules made by the High Courts. For the making of these bye-laws, however, the approval of the High Court will not be required ;
- (c) power is given to the Councils, with the sanction of the High Court, to prescribe fees to be payable to the Councils in respect of admission and enrolment and of the issue of certificates ; and
- (d) the powers of the Councils to hold inquiries into complaints of unprofessional conduct are restricted to cases referred to the Council by the High Court, and the inquiries are to be held by a Tribunal consisting of members of the Council appointed for the purposes of the inquiry by the Chief Justice or Chief Judge of the High Court. The High Court is, however, required to refer all complaints of unprofessional conduct which it does not dismiss either to the Bar Council or to a subordinate court for inquiry. Instead of requiring the sanction of the Court for compelling the attendance of witnesses in each case a Tribunal is given power to enforce such attendance. A Tribunal is also given power to administer oaths to witnesses, and the protection of the witnesses who give evidence, which was recommended by the Committee, is secured by applying the provisions of section 132 of the Indian Evidence Act to proceedings before a Tribunal. On the other hand, rules governing the procedure of a Tribunal are to be prescribed by the High Courts instead of by Councils with the approval of the High Court.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Wheat Crop of Bengal, 1925-26.

- NOTE.—On an average of the five years ending 1923-24, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1923-24, averaged (a) 42·2 and (b) 14·7 per cent., respectively.

Explanatory.—Four forecasts of the wheat crop are published. This forecast deals only with the area sown and the general condition of the crop in its early stages.

Acreage.—According to the estimates of the District Officers the total area sown amounts to 130,600 acres against 127,300 and 126,400 acres reported, respectively, in the corresponding and final forecasts of last year.

Character of the season.—With sufficient soil moisture as a result of rainfall during the months of September and the first half of October the sowings commenced at the normal time except in Dinajpur and Bogra where they were a little late. Dry and sunny weather in December was helpful to the growth and the present outlook is, so far, promising on the whole.

**RESOLUTION ON THE SIXTY-THIRD ANNUAL REPORT OF THE GOVERNMENT
CINCHONA PLANTATIONS AND FACTORY IN BENGAL FOR THE YEAR
1924-25.**

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Cinchona.

CALCUTTA, THE 22ND JANUARY 1926.

RESOLUTION—No. 899.

READ---

The sixty-third annual report of the Government Cinchona Plantations and Factory in Bengal for the year 1924-25.

READ ALSO—

The report of the previous year.

Mr. C. C. Calder officiated as Superintendent throughout the year.

The area under cinchona at the end of the year was 3,060 acres. No extension of any importance was carried out at Mungpoo and Munsong, but other ranges have been explored with the result that an area of about 600 acres has been found in the Latpanchor forest with conditions sufficiently favourable to justify the cultivation of experimental plots.

The quantity of cinchona harvested during the year was considerably less than in the year 1923-24. This appears to have been due to the large stocks of bark already held at the factory as the total quantity of bark worked up at the factory was some 54,000 lbs. more than in the previous year. Rather more than half of this bark was Java bark belonging to the Government of India.

The quantities of quinine sulphate and other alkaloids prepared from provincial bark were almost the same as last year, the figures being 19,230 lbs. of quinine sulphate and 8,348 lbs. of other alkaloids. There was a considerable increase in the total outturn of the factory, but this was in products from Java bark.

The manufacture of quinine tablets for sale through post offices has been transferred from the Juvenile Jail, Alipore, to the Presidency Jail. Machines for the manufacture of these tablets have been ordered and will be installed at the Mungpoo factory. The manufacture of the tablets will then be transferred to Mungpoo. Provision has also been made for the erection of ferro-concrete tanks for storing quinine in the crude form, as storage in tins has been found unsatisfactory.

The financial results were again satisfactory, although the surplus receipts over expenditure fell from Rs. 4,56,825 in 1923-24 to Rs. 4,42,934 in the year under report, and the value of stock at the end of the year was almost Rs. 30,000 less than at the beginning. The total expenditure was Rs. 3,33,626, being slightly lower than in the previous year. The receipts including the jail share for the sale of quinine tablets were Rs. 7,76,560 and were some Rs. 16,000 less than in 1923-24.

Although the quantity of quinine salts supplied to dispensaries and District Boards in Bengal increased by more than 1,600 lbs., there was a decrease of more than 3,300 lbs. in the total quantities sold. This decrease was compensated for by an increased demand for cinchona febrifuge, to meet which 5,000 lbs. had to be obtained from Madras. The price of quinine sulphate fell during the year from Rs. 28 to Rs. 24, and there were similar reductions in prices of other products.

The thanks of Government are due to Mr. Calder for his sound administration of the plantations and to Mr. Shaw, Government Quinologist, for the successful working of the factory.

ORDER—Ordered that this resolution be published in the *Calcutta Gazette* and that a copy with a copy of the report be submitted to the Government of India.

By order of the Governor in Council,

W. S. HOOKYNS,

Secretary to the Government of Bengal.

**RESOLUTION ON THE REPORTS ON INLAND EMIGRATION FOR THE YEAR
ENDING THE 30TH JUNE 1925.**

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Emigration.

CALCUTTA, THE 16TH JANUARY 1926.

RESOLUTION—No. 723Emi.

READ—

The Reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1925, submitted by the Superintendent of Emigration, Calcutta, and the District and Assistant Superintendents of Emigration.

There was a noticeable decrease in the number of emigrants despatched to the labour districts during the year under review as compared with the previous year, but the total number was still greater than those of 1921-22 and 1922-1923.

2. Recruitment in Bengal was, as in previous years, confined to the districts of Bankura, Birbhum, Burdwan and Midnapore. The number of garden sardars employed during the year was 215 as against 253 in the preceding year. All worked under the supervision of licensed local agents. The number of local agents' licenses issued was 18 as against 21 licenses granted in the previous year. The total number of emigrants registered by garden sardars in Bengal was 406 as against 217 in the preceding year. The largest number registered was in the Midnapore district, viz., 369. The total number of recruits from Bengal and other provinces embarking at Goalundo was 12,625 (including two remaining at Goalundo at the close of the previous year) as against 17,054 in the preceding year.

3. Arrangements for river transport were satisfactory. Only one death due to cholera occurred at the halting station at Kharagpur, and there was no death at the other two halting places at Asansol and Naibati. Of the 12,638 emigrants, who arrived at Goalundo from the recruiting districts in and outside the Presidency of Bengal, five deserted, eight were released, and two died. There was no casualty amongst the emigrants during their journeys by steamer from Goalundo or by railway from Chandpur to their final destination. There was one case of desertion amongst the emigrants who embarked at Goalundo for the Brahmaputra Valley.

4. In connection with the transport of labour to Assam, receipts amounted to Rs. 1,796 as against Rs. 2,100 in the preceding year, while the expenditure increased from Rs. 7,781-12-1 to Rs. 13,595-6-2.

5. The office of the Superintendent of Emigration, Calcutta, was held by Lieutenant-Colonel C. A. Gourlay, I.M.S., from the beginning of the year under review up to the 18th October 1924, when he proceeded home on leave after making over the charge to Lieutenant-Colonel A. Denham White, I.M.S., who held the appointment from the 19th October 1924 to the end of the year under review. The thanks of the Governor in Council are due to both these officers and also to the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

W. S. HOPKINS,

Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Sugarcane Crop of Bengal, 1925-26.

NOTE.—On an average of the five years ending 1923-24, the area under sugarcane has represented some 7·6 per cent. of the total area under sugarcane in British India.)

Character of the season.—As indicated in the second forecast the weather was favourable at the outset. But heavy rains before the setting in of the monsoon adversely affected the outturn in the important districts of North Bengal. In East Bengal, particularly in the Dacca Division, a good crop has been reaped, whereas in West Bengal the crop somewhat suffered from insufficient rain.

Acreage.—The total area planted with the crop for the province is estimated at 215,000 acres this year as against 206,200 acres last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the province works out at 85 per cent. of the normal this year as against 76 per cent. last year.

Taking 36½ maunds as the normal yield of cane-gur per acre, the gross outturn for the province is estimated at 245,000 tons this year as against 219,100 tons last year.

Other sources of Gur.—The total quantity of gur likely to be obtained from date-palm juice and others is estimated at 108,500 tons this year as against 116,700 tons (revised) last year.

The quantity of gur for the province from all sources is thus estimated at 353,500 tons this year as against 326,800 tons (revised) last year.

Hooghly ...	8,200	3,500	3,700	75	90	Not yet commenced.	The increase in area is due to the high price of <i>gur</i> obtained last year and to favourable weather condition at planting time. The weather was, on the whole, favourable, but want of adequate rain slightly retarded the growth of the crop at some places in the Sadar subdivision.
Howrah ...	5,200	3,800	3,800	48	92	The effects of weather on the cultivation and growth of the crop were favourable.
Rajshahi ...	7,500	6,000	5,500	100	83	December. Normal.	The decrease in area is due to ordinary fluctuation. Some damage was done to the crop at Natore by constant rainfall. The outturn is expected to fall below the normal owing to the unequal distribution of rain.
Olujpur ...	29,500	29,500	30,700	80	66	First part of December. Normal.	The increase in area is due to high prices of molasses. The weather was favourable at the planting time, but subsequent heavy rains damaged it to a great extent.

In addition to the details required on the reverse, clear information should be given below under the following heads :—

No. F.-158-C. S. R./25.—The following Resolution by the Secretary of State for India in Council is published for general information :—

Civil Pensions (Commutation) Rules.

In exercise of the powers conferred by sub-sections (2) and (3) of section 96B of the Government of India Act, the Secretary of State in Council, with the concurrence of the majority of votes at a meeting of the Council of India held on the 16th day of September 1925, hereby makes the following rules to regulate the commutation of civil pensions namely :—

- 1.—(a) These rules may be called the Civil Pensions (Commutation) Rules.
- (b) They shall be deemed to have come into force on 1st April 1925.

2. The powers granted by these rules shall be exercised, in relation to Government servants who are under the administrative control of a local Government, by the local Government, and in relation to other Government servants by the Governor-General in Council, and may be delegated by them to the High Commissioner for India, subject to any condition which they may think fit to impose.

3. A Government servant who is a member of one of the Services or holds one of the posts included in the appendix to these rules shall be entitled, subject to the conditions hereinafter specified, to commute for a lump payment any portion, not exceeding one-half, of any pension which has been or may be granted to him under civil rules. But any such commutation shall be subject to the condition that—

- (a) if the pension exceeds £180 when payable in London, or Rs. 2,057 when payable in India, not less than £150 (or Rs. 1,714) of its value shall remain uncommuted; and
- (b) if the pension is less than £180 (or Rs. 2,057), not more than £30 (or Rs. 343) of its value shall be commuted, and not less than £120 (or Rs. 1,371) shall remain uncommuted:

Provided that the sanctioning authority may at its discretion relax or waive this condition in the case of a pension granted under the Premature Retirement Rules.

4. On the application of any Government servant to whom Rule 3 does not apply, the sanctioning authority may, on such conditions as it thinks fit to impose, sanction the commutation for a lump payment of a portion, not exceeding one-half, of any pension which has been or is about to be granted to him under civil rules.

5. Applications shall be addressed—

- (a) in the case of pensioners who draw their pensions from Indian Treasuries, or who, being resident in Colonies having an account current with the Accountant-General, Central Revenues, draw their pensions from the local Treasuries, to the local Government or to the Government of India, as the case may be; and
- (b) in the case of all other pensioners, to the High Commissioner for India, provided that in the case of pensioners residing in a Dominion or Colony, other than those referred to in clause (a) of this rule, the application shall be addressed to the High Commissioner through the official from whom the pension is drawn.

6. No commutation shall be sanctioned until the pensioner has produced a certificate from such medical authority as may be prescribed in this behalf by the sanctioning authority to the effect that his bodily health and prospects of duration of life are such as to justify commutation.

7. The lump sum payable on commutation shall be calculated in accordance with a table or tables of present values which shall be prescribed by the Governor General in Council in the case of pensioners whose applications are addressed to a local Government or to the Government of India, and by the Secretary of State in Council in all other cases. For the purpose of this rule, the age of the pensioner shall be assumed to be such age, not being less than his actual age, as the certifying medical authority may direct.

8. When commutation has been sanctioned the pensioner shall be informed accordingly, and shall have the option of withdrawing his application within one week after being so informed. If he does not withdraw his application within that period, the commutation of pension shall become absolute, and payment of the lump sum shall be made forthwith, payment of the commuted portion of the pension thereupon ceasing.

9. The lump sum, if calculated in accordance with the table of present values prescribed by the Governor General in Council, shall be payable in India; in all other cases it shall be payable at the Home Treasury.

10. If, when the commutation of a portion of a pension has been sanctioned, the pensioner dies on or after the date from which commutation is to take effect, but before receiving the commutation value, this value shall be paid to his heirs.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 508L., dated Calcutta, the 2nd February, 1926.—The following Report of the Select Committee on the Bengal Local Self-Government (Amendment) Bill, 1925, with the Bill as amended by the Committee, is hereby published for general information :—

REPORT OF THE SELECT COMMITTEE ON THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) BILL, 1925.

We, the members of the Select Committee appointed to consider the Bill further to amend the Bengal Local Self-Government Act of 1885, beg to submit this, our Report, with the Bill, as amended by us, annexed hereto. In reprinting the Bill, all changes made by us have, so far as possible, been underlined.

The possible application of the proposed Act to the Darjeeling district under the Government of India's notification No. 2G., dated the 3rd January, 1921, was considered, as some of the provisions of the proposed Act would not be suitable for that district. It was decided that as the Bengal Local Self-Government Act of 1885 does not apply to the Darjeeling district, no reference need be made in the Bill to that district and the proper course would be for that Act as amended up to date to be applied to the Darjeeling district under the notification of the 3rd January, 1921, with such modifications as may be deemed necessary.

2. The more important changes we have made in the Bill are as follows:—

Clause 1A.—This new clause which we have inserted merely contains a necessary drafting alteration, other necessary changes being made throughout the Bill in relation to the clause.

Clause 2.—The majority of us consider that the question of the proportion of members of District Boards to be elected by Local Boards is one in respect of which it is necessary to obtain an opinion from the various District Boards and local officers and that it cannot be suitably dealt with in a Bill of this nature which is being treated as an emergency measure. The question may be left over to be dealt with in the Bill which is under contemplation to amend the Act generally. Clause 2 has therefore been omitted.

Clauses 3, 4 and 5 have been omitted for similar reasons.

Clause 6.—We are of opinion that the proposed amendment requires modification. As it stands, it would permit *any* graduate, *e.g.*, a visitor from Australia, to qualify for election as a member of a Local Board referred to in section 13 of the Act. We have therefore recast the clause in order to avoid this contingency.

Clause 7.—We are of opinion that the provision as to refusal to act as a member of a Board may be retained, but that the principle of the clause may be accepted. The clause has been recast accordingly.

Clause 8.—This clause has been redrafted by us on the lines of sub-section (2) of section 22 of the Calcutta Municipal Act, 1923, which makes an offence involving moral turpitude and carrying with it a certain sentence a reason for making a councillor ineligible for appointment for five years.

Clause 12.—Sub-clause (1a) which we have inserted contains a necessary consequential amendment.

Clause 13.—In sub-section (2) of the proposed section 30A we have provided that the appointment of a Secretary by a District Board is to be permissive and not compulsory.

Sub-sections (2) and (3) of the proposed section have been recast on the lines of sub-sections (7) and (4) of section 12 and section 52 of the Calcutta Municipal Act, 1923, and now appear as sub-sections (1a), (1aa) and (2).

Clause 13A is consequential on clause 13.

Clause 14, and other similar clauses.—We are of opinion that the various powers given to the Lieutenant-Governor (now the Governor in Council) by sections 32, 38, 62, 63, 64A, 66, 71, 85, 86, 87, 91, 95, 100 and 120 of the Act must be retained. Clauses 14, 16, 23, 24, 25, 26, 27, 29, 30, 31, 33, 34 (3), 36 and 37 have therefore been omitted.

Clause 18.—Sub-clause (2) has been altered so as to provide for the financial statement to be sent to the Commissioner by the District Board for his suggestions which they must take into consideration.

Clauses 19 and 22 have been omitted, but are reproduced in the new repealing clause 44.

Clause 28 has been amplified so as to incorporate in section 78A of the Act provisions on the lines of section 3 of the Bengal Highways Act, 1925, which require, where possible, some other means of access when a road is closed; and an alternative route in the case of the closing of more than half a mile of road at a stretch. It has also been provided that Government roads temporarily vested in District Boards shall be exempted from the application of section 78A.

Clause 35.—Measures for the relief of famine or serious distress can best be organized in consultation with the local officers of Government and we consider that the Commissioner's power of limiting the expenditure referred to in section 99 should be retained. The clause has therefore been omitted.

Clauses 38, 39 and 40.—We have decided by a majority that the powers of the Commissioner and the Magistrate under sections 124, 125, 126, 127 and 128 should be retained. We have therefore omitted clauses 38, 39 and 40.

Clause 41.—We are of opinion that it is not desirable to give the rule-making power referred to in sub-clause (1) to the District Board.

As regards sub-clause (2) it was pointed out that a ballot system is at present followed in the case of the election of a Chairman or Vice-Chairman of the Boards, and that Government are taking steps to introduce the ballot system in the case of the members of the Boards. Clause 41 has therefore been omitted.

Clause 44.—This new clause reproduces clauses 19 and 22.

The Bill was published in accordance with Rule 20 of the Bengal Legislative Council Rules, 1920, in the *Calcutta Gazette* of Thursday, 27th August, 1925.

We consider that the Bill has not been so altered as to require republication.

Minute of Dissent by Maulvi Sayedul Hoque, M.L.C.

I regret that I am unable to agree to the following:—

Clause 2.—The basis of my argument rests on the principle that the local bodies are to be responsible self-governing institutions of representatives. This principle, I believe, derives its authority from the various declarations of the Government. If this principle is not to be upheld, I have nothing to say. If, however, this principle is to be maintained, the proportion of the members of District Boards to be elected by Local Boards ought to be raised, because the present proportion of nominated members generally commands the majority on account of pressure of their official influence *de facto* though *in jure* they may be supposed not to utilise that influence. We have seen many salaried servants of the Government taking active part in these matters, and even it has been proved in Courts. Moreover the Bill, in my opinion, cannot be called an emergent one. It had been introduced in one session of the Council, it had been published in the *Calcutta Gazette*, and then it has been referred to a Select Committee in the last session of the Council. And again nothing is certain what the Government will be doing in respect of the Bill in the contemplation of the Government on the subject. Therefore clause 2 ought to be retained.

Clauses 3, 4 and 5 ought to be retained for similar reasons.

Clause 8.—I cannot agree to this clause, as amended by the Select Committee, unless "moral turpitude" in the proviso is defined and definitely told under what sections of the Criminal Procedure Code this "moral turpitude" shall be treated.

Clauses 14, 16, 23, 24, 25, 26, 27, 29, 30, 31, 33, 34 (3), 36, 37 and 42 ought to be retained for reasons similar to those given for the retention of clause 2.

Clause 35.—The value of consultation with local officers of the Government on measures for the relief of famine or serious distress can be appreciated, but this does not call for the interference of the Commissioner. So clause 35 ought to be retained.

Clauses 38, 39 and 40.—In addition to what I have said regarding the retention of clause 2, it may be said that there is no reason to suppose that a body of qualified, responsible and representative members shall be so irresponsible as to undertake any work which is likely to cause any injury or annoyance to the public or to any class or body of persons or to lead to a breach of peace or to neglect any work, the non-performance of which may lead to public unsafety or serious inconvenience. It is rather derogatory to local bodies. Therefore, clauses 38, 39 and 40 ought to be retained.

Clause 41.—In my opinion the rule-making power in some matters ought to be given to District Boards and secret voting by ballot will guarantee free exercise of voters. Therefore clause 41 ought to be retained.

Minute of Dissent by Babu Bejoy Krishna Bose, M.L.C.

I sign this Report subject to the following note of dissent. I am in favour of substitution of "four-fifths" for "one-half", as provided for in clauses 2, 3 and 4 of the Bill. It is unfortunate that the mover of the Bill was not present at the meeting of the Select Committee. I take it his object was to introduce a larger element of elected members in the District Boards. I fail to understand how the Bill can be considered as "an emergency measure". It has for one of its objects the liberalising of the

present constitution of the Boards. In any measure that may be undertaken by the Government for amending the whole Act, which I understand it is the intention of the Government to do, there will be no question of increasing the number of appointed members. On the other hand, in accordance with the altered state of things, there will be a large element of elected members. I would go further and state as my definite opinion that the constitution of the District Boards should be wholly elective, and the Bill, as it is, does not go far, as it should have done. Official control of, and official *bloc* in, the Boards ought to cease.

Clause 5 follows as a necessary corollary to the above clauses and I am in favour of its retention. I am in favour of retention of clauses 16 and 17 of the Bill. There ought to be as little interference with the work of the Union Committee as possible, and this cannot be insured unless two-fifths of the members of these committees owe their seats, not to the pleasures of the Circle Officers, who represent the Government in these cases, but to election by the cess-payers living within a Union.

Clause 19 should be retained, thereby omitting section 48 of the Act. The last paragraph of section 47, as suggested and adopted by the Select Committee, will meet the requirements of the situation, and the estimates, after they had been considered in the light of the suggestions made by the Commissioner, need not be resubmitted to him, nor are his directions necessary.

I am in favour of clause 37 as the first step in a tardy instalment of Local Self-Government our Rulers can give us. The District Boards should be free of the leading strings. Commissioners and District Magistrates can bring to the notice of Government anything in the action of the District Boards they do not approve. But they should not interfere in any way. It follows from what I say here that I am also in favour of clauses 38, 39, 40, 41 (1) and 43 of the Bill.

GOVERNMENT OF BENGAL,

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 509L., dated Calcutta, the 2nd February, 1926.—The following Report of the Select Committee on the Bengal Village Self-Government (Amendment) Bill, 1925, with the Bill as amended by the Committee, is hereby published for general information :—

**REPORT OF THE SELECT COMMITTEE ON THE BENGAL VILLAGE
SELF-GOVERNMENT (AMENDMENT) BILL, 1925.**

We, the members of the Select Committee appointed to consider the Bill to amend the Bengal Village Self-Government Act, 1919, beg to submit this our report, with the Bill as amended by us annexed hereto. In reprinting the Bill, all changes made by us have, so far as possible, been underlined.

In clause 2 of the Bill we have considered it desirable to revise the proposed new section 20 of the Act so as to secure that where the approval of the District Magistrate is withheld from the action of the union board in appointing or dismissing a dafadar or chaukidar the reasons for withholding approval shall be recorded in writing. We have introduced a further provision enabling the District Magistrate to make an appointment if the union board fails to perform its duty in this respect within a reasonable time, which we have defined as two months from the occurrence of the vacancy either in the ordinary course or from the fact that an appointment made is not approved by the District Magistrate.

We have considered it desirable to remodel sub-section (2) of the proposed new section 20 so as to leave the District Magistrate in possession of the power to dismiss a dafadar or chaukidar in certain circumstances which we have specified. We consider this necessary in view of the fact that dafadars and chaukidars have, under section 23 of the Act, to perform certain duties of the nature of police work from which the union board is almost entirely dissociated and which it is advisable that the District Magistrate should be able to enforce. The power of dismissal by the District Magistrate can only be exercised after the union board have been consulted, and the reasons for such dismissal must be recorded in writing.

Our recommendations of the above points are unanimous.

We have decided by a majority to leave to the District Magistrate the duty of determining the nature and cost of the equipment of dafadars and chaukidars.

We consider in the first place that uniformity is desirable and that this can best be secured by the system at present in force; secondly, that the determination of the nature of the uniform appears to be a matter which can best be left to executive officers, while the actual charge on the union fund for this purpose is a comparatively small sum, and, finally, we are of opinion that it is impracticable to separate the cost of equipment from the nature of equipment since the one in effect determines the other.

The Bill was published in accordance with rule 20 of the Bengal Legislative Council Rules, 1920, in the *Calcutta Gazette* of Thursday, 27th August, 1925,

We consider that the Bill has not been so altered as to require republication.

We recommend that the Bill, as amended by us, be passed.

Note of Dissent by Babu Boroda Prosad Dey, M.L.C.

I sign this report subject to my note of dissent, namely, that the right to determine the nature and cost of the equipment of dafadars and chaukidars should be left to the union boards, who shall pay for the same, and who are not likely to do anything in the wrong way. In order to secure uniformity, though it is not so rigidly required, some general rules may be made by the Local Government in this behalf, and amended from time to time upon the representations of union boards, to which union boards shall have to conform in determining the nature and cost of such equipment.

Further, it seems there have been printing mistakes in two places of the amended Bill in omitting the words *in writing* in sub-section (3) of section 20, and in the proviso to sub-section (1) of section 21. This is only formal.

Note of Dissent by Rai Harendranath Chaudhuri, M.L.C.

While I am glad that the Select Committee have accepted more than one proposal in my Bill to amend the Village Self-Government Act and must thank them for their endeavours to improve and amplify some of the provisions in the Bill, I regret I cannot agree with them on two very important points.

In clause 2 of the Bill [sub-section (2) of the proposed new section 20], as it was framed by me, the power to dismiss chaukidars and dafadars was proposed to be conferred on the union board, subject, of course, to the subsequent approval of the District Magistrate. Such power the Panchayet enjoyed even under the older Act of 1870. The Select Committee have chosen to add that the District Magistrate shall also have the power to dismiss the chaukidars and dafadars and thus they propose to retain the present dual authority and continue the existing unhappy arrangement under which the village police have to serve under two masters. By the amendment made by the Committee practically the greater control is given to the District Magistrate, for in both cases he is given the power of dismissal—in one case the direct and in another the indirect. The union board is not even made a co-ordinate authority with equal powers over the chaukidars, and the result of it will be the continuance of the present unsatisfactory state of things.

The second point on which I find myself in greater disagreement with the view of the majority is about the authority which is to determine the nature and cost of equipment of the village police. In clause 3 of the Bill, as it was framed by me, I proposed that the union board should have the power to determine the *nature and cost* of the equipment involved, as the latter did the larger question of the disbursement of the village fund. Those who would pay the tax and raise the fund should have, in my opinion, the control of the expenditure thereof. But the question was raised how, if the District Magistrate was divested of the power, uniformity in the matter of equipment would be secured. I think the clause, as it originally stood, secured it by providing for the approval of the District Magistrate and it could be further secured by providing for the maintenance of the present equipment so long as it was not changed with such approval. But then, again, it was contended that it might stereotype the present uniform. How that could be such a serious contingency as to justify the conclusion that the union board must go without the power to determine the *nature and cost* of the equipment I for myself fail to understand. However, I was prepared to yield on the question of the *nature* of the uniform and to take out the word "nature" from the Bill and leave the determination of the *nature* of the uniform to the District Magistrate. But the majority, accepting the view

that with the *nature* of the equipment went the question of its *cost* as well, preferred to retain intact the power of the District Magistrate in the matter of determination of *both the nature and the cost* of equipment and refused to transfer to the union board the authority to determine even the *cost* of equipment of chaukidars. As I was unable to attach so much weight and importance to the plea—that the question of the nature and that of the cost of equipment are absolutely inseparable—as to ignore the greater bearing of the latter on the funds of the union board I could not agree with the majority view of making the District Magistrate the sole authority in the matter of the determination of the *cost* of equipment of chaukidars and thus consent in a way to the continuance of the external control of village taxation and finance. Such a power vested in the District Magistrate as distinguished from the union board appears to me absolutely inconsistent with all idea of village self-government, and I feel bound therefore to dissent from the view that the majority have taken in this matter.

Note of Dissent by Maulvi Sayedul Hoque, M.L.C.

I sign the report, subject to the following minute of dissent. I do not agree to leave to the District Magistrate the duty of determining the nature and cost of the equipment of dafadars and chaukidars, because the charge for this purpose is made on the union funds; and, therefore, the union boards ought to be autonomous on the subject. If, however, much stress is given on the uniformity of equipment among different union boards, it may be left to the District Magistrates to determine the nature, but, by no means, should the hands of those, who supply the cost, be fettered to determine how much they are in a position to pay, unless we do not mean to avoid the cases of hardship upon the taxpayers, and of financial death to many urgent and important local works.

STATEMENT OF OBJECTS AND REASONS.

The Calcutta High Court has recently ruled in the case of *Ramgopal Goenka vs. Corporation of Calcutta* that the Corporation constituted under Bengal Act III of 1923 have no power to take proceedings in respect of breaches of the building regulations committed before that Act came into force. This decision is based on the fact that there is no provision in the new Act substituting the present Corporation in the place of the General Committee which under the repealed Bengal Act III of 1899 was entitled to initiate such proceedings. As a result of this ruling, the Corporation are powerless to take proceedings in over 200 cases in which serious infringements of the building rules were committed when the old Act was in force.

The Bill proposes to take power for the Corporation to initiate or continue proceedings not only in respect of breaches of building regulations but for any breach of the repealed Act of 1899.

The additions and alterations which it is proposed to make in Bengal Act III of 1923 are explained in detail in the subjoined notes on clause.

CALCUTTA :

The 11th November, 1925.

NOTES ON CLAUSE 2.

Proposed new section 557A.—It is proposed to meet the situation disclosed by the High Court judgment—in *Ram Gopal Goenka vs. The Corporation of Calcutta*, by introducing this section into the Calcutta Municipal Act, 1923. The section has been made general in its scope, to cover other cases than that actually dealt with in the High Court judgment, namely, prosecutions, etc., for any breach of the repealed Act of 1899.

Sub-section (1) explains itself. The Corporation desired to limit their powers of pursuing breaches of the old Act to 3 years from the commencement of the Calcutta Municipal Act. The proviso to this sub-section imposes a limitation of this kind, but defines the limit as 6 months from the passing of this Act.

Sub-section (2) meets one of the points made in the High Court judgment, namely, that the Corporation did not succeed the General Committee in respect of the functions in questions in the case cited. The second part aims at overcoming a possible contention that where the General Committee has complied with the requirements of the old Act and those requirements are not the same as the requirements of the new Calcutta Municipal Act, a proceeding should fail because the requirements of the Calcutta Municipal Act had not been satisfied.

Sub-section (3) provides that the procedure under the new Act should be followed as far as practicable, without however making it necessary for the Corporation to do over again what has already been done by the General Committee. The sub-section aims at covering a wider field than mere contraventions of sections 449 and 450 of the repealed Act of 1899.

Sub-section (4) aims at validating the re-institution of magisterial and other proceedings which may have been disposed of on the strength of the High Court judgment. The two alternative reasons adduced by the Hon'ble Judges why the proceedings against Ram Gopal Goenka must fail have been specifically enumerated in view of the possibility that either or both have been subsequently quoted in other cases by Magistrates disposing of similar matters.

Sub-section (5) requires some explanation. Section 631 of the Act of 1899 limits the time within which a prosecution under the Act can be launched to 3 months, or in one special case to 6 months after the commission of the offence. Section 534 of the Calcutta Municipal Act, 1923, reproduces the section. It would seem that the section has no reference to proceedings before a Magistrate under sections 449 and 450 of the repealed Act, or sections 363 and 364 of the present Act, since what is there being sought from the Magistrate is a direction to demolish, not a conviction for an offence. But a contravention of the building regulations might also be pursued as an offence under section 579 of the repealed Act and failure to comply with a magisterial direction to demolish might be pursued as an offence under sections 580 and 581. The Act of 1923 has similar provisions in sections 488 and 493. The Act of 1923, however, has two important provisions not contained in the old Act, namely, it limits the action of the Corporation under section 363 to five years from the date of contravention, and it forces the Corporation to make a choice between prosecution under section 493 and application for magisterial direction under sections 363 or 364. Under the Act of 1899 there appears to be no limit to the time within which action under sections 449 and 450 can be taken, and it was open to the General Committee apparently to prosecute under section 579, then get an order for demolition under section 449, and to prosecute for failure to obey the order of demolition under section 580. In regard to these prosecutions as well as other prosecutions however, section 631 barred action after 3 months, so that for any offence against the Act of 1899 committed between 1st January and 31st March, 1924, it is possible that the repeal of the Act on 1st April deprived the authorities of the power to prosecute, though if the Act had not been repealed the General Committee or other authority could have prosecuted.

This section enables the corresponding authority to prosecute in such cases, and sub-section (5) enables such prosecution to be instituted despite the fact that by section 631 of the Act of 1899 the General Committee even if the Act had not been repealed could not prosecute after the expiry of 3 months from the offence. In effect that period of 3 months is made 6 months by the Bill, but in view of the fact that the life of the old authority was interrupted, perhaps this is justified.

Proposed new section 557B.—This new section seeks to vest the Corporation with the functions of the old General Committee in order to enable the Corporation to deal with applications for abandonment of acquisition under the old Act or to fix the amount of the exemption fee as required by section 359 of the Bengal Act III of 1899.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Report on the Cotton Crops of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under the cotton crops in Bengal has represented some 0.2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The “early” crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent also in other districts. The “late” crop is chiefly grown in Bankura and Midnapore.

Character of the season.—Except for a slight damage in October in the Tripura State, the condition was generally favourable in the important districts and a satisfactory crop has been reaped, while in Midnapore and Bankura want of sufficient and timely rain affected the outturn to some extent.

Area sown.—The total area sown with early cotton is returned at 76,231 acres and that with late at 1,407 acres, against 75,575 acres and 1,207 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 25,773 bales and the late crop at 328 bales against 23,506 bales and 330 bales, respectively, in the corresponding forecast of the last year.

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1925.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 6TH FEBRUARY 1926.

RESOLUTION—No. 1655L.R.

READ—

The Survey and Settlement Reports for the year ending the 30th September 1925, received with Director of Land Records and Surveys' letter No. XXIV—2-1822, dated the 2nd January 1926.

The main traverse programme of 950 square miles in the 24-Parganas and 730 square miles in Murshidabad and Birbhum was fully carried out. The area under survey in the 24-Parganas contained much jungle and presented special difficulties; the cost rate has consequently been comparatively high.

2. The programme of revisional operations in the Chittagong district had to be revised, as it was found that, owing to the extension of cultivation and the changes in configuration due to the cyclone, the settlement could not be based on the old maps, and a fresh traverse of the area was necessary.

3. Of the miscellaneous work done by the survey section a noteworthy item is the survey of the rivers Bidyadhari, Peali and Matla at the instance of the Corporation of Calcutta. The work was completed during the year and maps in 43 sheets showing all topographical details have been prepared.

4. Major settlement work was in full operation in the districts of Khulna, Pabna-Bogra and Murshidabad. It was in the closing stages in Bankura, Jessore and Nadia, while work was begun in Birbhum and the 24-Parganas. The revised programme was fully carried out. Records-of-rights have now been completed in 44,876 square miles out of the total area of 65,775 square miles in the Province to which the Bengal Tenancy Act applies. Apart from their value to the public as authoritative records-of-rights in agricultural land property, the records and maps are of great assistance to local officers. The Governor in Council notices with satisfaction that they are being utilised more and more, not merely in the different branches of the Collectorate, but also by the Magistracy, police and local bodies and in the Education, Excise and Sanitary Departments.

5. Mr. A. K. Jameson, I.C.S., continued in charge of both the Survey and Settlement Departments up to the 30th March, when he went on leave, and Khan Bahadur M. A. Momen acted till the end of the year. The Governor in Council has much pleasure in acknowledging the efficiency and care with which both officers have managed the two departments under them, and the interesting and thoughtful report submitted by Mr. Jameson. His Excellency in Council is also pleased to direct that the good work done by Messrs. Fawcus, McPherson, Kindersley, O'Donel and Newton and the remarks of the Director of Land Records about other officers in the last two paragraphs of his report be noted.

ORDER—Ordered that this resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

W. S. HOPKINS,

Secretary to the Government of Bengal.

RESOLUTION ON PUBLIC HEALTH ADMINISTRATION IN BENGAL FOR THE
YEAR 1924.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

Public Health.

CALCUTTA, THE 2ND FEBRUARY 1926.

RESOLUTION—No. 293 P.H.

READ—

The Report of the Director of Public Health, the Sanitary Board and the Chief Engineer, Public Health Department, for the year 1924.

READ ALSO—

The annual statistical returns and short notes on vaccination in Bengal for the year 1924-25.

1. **Public Health.**—(Statistical, Epidemiological and General Public Health Administration).

Population.—For the purposes of this review the total population of Bengal excluding the Chittagong Hill Tracts is taken as 46,522,293 (1921 Census).

2. **Birth-rate and death-rate.**—During the year 1924 the number of recorded deaths in Bengal was 1,203,244 against 1,370,114 births. The provincial birth-rate in 1924 was 29·5 per mille as compared with 29·9 in 1923 and the quinquennial average of 28·3. The North-West Frontier Province and Burma returned lower birth-rates than Bengal. The aggregate birth-rate of the towns of Bengal during 1924 was 19·6 per mille against 20·4 in 1923, showing a decrease of 3·9 per cent. In this connection the Director of Public Health points out that “these low birth-rates indicate sheer neglect on the part of the municipal authorities to administer the Births and Deaths Registration Act. Although registration of births is compulsory in towns, yet it is regrettable that in spite of serious efforts on the part of the Public Health Department, repeated from year to year, the local bodies with the exception of a few have failed to have any appreciation of their responsibility in this matter—a factor so essential in estimating the effect of measures undertaken to improve the public health.”

The provincial death-rate in 1924 was 25·9 per mille as compared with 25·5 in 1923, the quinquennial average being 29·6 per mille. Madras and Burma returned lower death-rates than Bengal. The death-rate of 1922 was lower than that of any year since 1890. The death-rates of the triennium preceding 1922, when compared with those of the last three years, show a decided improvement, but there are nevertheless signs of a steady increase in mortality. The Director of Public Health remarks as follows :—

“That there is a close connection between economic conditions and public health is universally recognised, but the mechanism of relationship is not apparent. On the one hand are ranged rainfall, the extent of cultivation, the class and variety of crop, the yield per acre, the total harvest and the current prices of the commodities, and on the other hand the prosperity of the individual, death-rates and birth-rates and mortality. Speaking generally, prosperity results in a lowered death-rate, an increased birth-rate, and a natural increase of numbers.

“In Western and Central Bengal, the harvest is mainly rice, much of which is used for local consumption. Speaking generally, a large harvest brings increased prosperity, more food and better health. The amount of rice harvest is dependent on the amount and the distribution of rainfall, which vary from year to year. In this part of Bengal it is found—

- (a) that over a period of 30 years the trend of natural increase of population closely follows the rice production for the whole province;
- (b) that there is a close correspondence with the yield of rice per acre and the birth-rate, and
- (c) the mortality diminished with good rice harvests and increases with poor rice harvests.

"In Eastern Bengal, however, these relationships with rice harvests do not occur, in fact the relationships are rather reversed. The explanation probably lies in the different class of crop grown in Eastern Bengal, viz, jute. The demand for jute is a world-wide one, and the price of jute is therefore often determined by factors outside of Bengal. Falling jute prices, moreover, are associated often with good harvests, a good harvest does not therefore mean increased prosperity, as a good rice harvest does to the people of Western and Central Bengal. Conditions therefore tending to favourable vital occurrences in Western and Central Bengal may tend to unfavourable vital occurrences in Eastern Bengal and *vice versa*, so that it is necessary to appreciate these differences in economic and agricultural conditions before drawing conclusions as to the health conditions in the different parts of the province. On the whole, however, the conditions governing the production of jute are not so liable to fluctuations as those of rice production, and these vital occurrences tend to be more stable in Eastern than in Western and Central Bengal. The desideratum is the stabilisation of both rice harvests and of death-rates, and it would appear that the stabilisation of one would produce a similar effect on the other."

3. Registration of births and deaths.—The Director of Public Health has again drawn attention to the continued neglect by municipal authorities in administering the Registration of Births and Deaths Act. The necessity of obtaining an accurate record of vital statistics on which all sanitary measures depend was emphasised in last year's resolution, and the Governor in Council once more desires to invite the attention of municipal authorities to this important matter.

4. Infant mortality.—In 1924 252,337 infants died under the age of one year, as compared with 253,694 during the preceding year, the total mortality showing a net decrease of '5 per cent. The rate of infant mortality, however, increased from 182.1 per mille in 1923 to 184.2 per mille in 1924.

In 1924, 1,972 deaths from child births were reported, but the figure is not reliable and the Director of Public Health estimates that this figure should, in fact, be much higher.

In comparison with the preceding year, the still-births showed an increase of 3.3 per cent. In showing the proportion of still-births to total births in districts the Director of Public Health states that "however unreliable the registration of still-births may be, it is obviously apparent that in many of the districts....., still-births occur in the proportion of 1 to every 12-16 births. The District Health Officer of Khulna ascribed still-births to the inefficiency of the ignorant country *daïs* to resuscitate an asphyxiated child born after a prolonged and difficult labour, the child being thus left as dead on account of its not crying after birth. It is therefore essential that the district boards should seriously consider the question of training country *daïs* and thus reduce the number of still-births."

Some district boards and municipalities actually started classes for the training of *daïs* in 1923. The Governor in Council hopes that this sensible example will be followed by other boards. The opening of such classes is encouraged by the offer of small subsidies from Government.

Cholera.—There were 48,514 deaths from cholera in 1924 against 41,483 in 1923, showing a death-rate of 1.04 against .89 per mille of the population in the previous year and 1.5, the mean for the previous five years. Although the mortality from the disease was greater than in 1923, the decline on the average of the previous quinquennium was thus easily maintained. The Director of Public Health attributes the decrease mainly to the measures taken by the local bodies to cope with cholera epidemics by employing additional temporary sanitary staff. The Governor in Council appreciates the continued excellent work which such voluntary agencies as the Bengal Health Association, the Cholera Brigade of the Central Anti-malarial Co-operative Society and the Bengal Social Service League have done for the prevention of the disease.

The satisfactory results obtained so far tend to show that with the organization of a properly trained staff and the carrying out in every thana of anti-cholera measures, there is every chance of eliminating the disease as one of the chief factors in increasing the mortality of the province. It is gratifying to note that through the publicity work carried on by the Public Health Department by means of lectures and free distribution of popular literature on the prevention of cholera, the general public are beginning to

realise that cholera is essentially a preventable disease. Inoculation against the disease was proved to be most effective and does not appear to be unpopular.

Small-pox.—In 1924 the mortality from small-pox was 5,567 against 4,236 in 1923, 7,861 in 1922, 8,157 in 1921, and 36,190 in 1920. A review of the mortality statistics of small-pox leads to the conclusion that in Bengal a recrudescence of small-pox in epidemic intensity may be expected every five years. The last severe epidemic of small-pox took place in 1919-20 and it was, therefore, apprehended that another epidemic might appear in 1924-25. This apprehension was unfortunately only too well-founded as was shown by the high mortality during the first six months of 1925, though the epidemic was less severe than that of 1919-20.

The total number of vaccinations reported in 1924-25 was 2,609,241 against 2,057,721 in 1923-24, showing an increase of 605,242 or 29·4 per cent. operations. Of the total operations, 1,655,201 were recorded as primary and 1,007,765 as re-vaccinations against 1,590,576 primary and 467,145 re-vaccinations during 1923-24. There was thus during the year 1924-25 an increase of 4·06 per cent. in primary and of 115·7 in re-vaccination operations.

During the year under review all the districts in Bengal except Tippera, Rangpur and Dinajpur, showed an increase in the total number of operations in comparison with the figures of 1923-24. The increase in Calcutta was due to the prevalence of small-pox in an epidemic form during 1924-25. The increase in other districts is also attributable to the same reason as well as to the introduction of free vaccination.

It is satisfactory to note that the supervision exercised by the District Health officers with the assistance of the provincial vaccination inspecting staff contributed in no small degree towards these satisfactory results.

During 1924-25 out of 1,112,074 infants requiring vaccination in the Presidency, 306,344 or 275·4 per mille were reported to have been successfully vaccinated as compared with 302,730 or 262·6 per mille of 1,152,778 infants in the previous year.

Fever.—In 1924 the mortality from fever was 912,408 against 909,795 in 1923, showing a ratio of 19·6 per mille in 1924 against 19·5 in the previous year. Deaths from fever as usual represented about 75 per cent. of the total mortality in 1924, deaths from malaria, enteric and relapsing fevers were less common than in the previous year, while mortality from measles Kala-azar and other fevers increased, the increase under Kala-azar being greatest (119 per cent.). As compared with the mean for the previous ten years, all the divisions showed improvement in regard to fever mortality during 1924, which was most marked in the Burdwan Division, where the fever mortality was reduced by 30·0 per cent. and in the Presidency Division where it diminished by 19·0 per cent. The Chittagong Division showed a reduction of 10·9 per cent., Rajshahi Division 8·2 per cent., and Dacca Division 1·6 per cent.

As regards the increase of malaria in Eastern Bengal districts the Director of Public Health remarks as follows :—

“ This increase of malaria in Eastern Bengal districts appears to be associated with the great increase of the water hyacinth, an extensive multiplication of village roads raised considerably above the surface of the country and railway extension in certain areas, notably Mymensingh, all resulting in an interference with flow of flood water in the *bils* and water-courses and across the surface of the country.”

The experiments carried on in the colliery area (Singaran-Topsi) and at Meenglas in the Duars with a view to reducing malaria were on the whole successful. As noticed in the last year's resolution, the Banka Valley scheme continued to give good results and effected a further reduction of the spleen index. A flood and flush scheme was in operation at Jangipur, and the results so far obtained were satisfactory.

Kala-azar.—The number of reported deaths from Kala-azar was 9,997 in 1924, against 4,565 in 1923, 1,531 in 1922 and 1,552 in 1921. The number

of Kala-azar cases treated at hospitals, dispensaries and special centres was 139,085 in 1924 against 57,238* in 1923, 13,317 in 1922 and 7,698 in 1921. It is satisfactory to note that several Kala-azar centres were opened by district boards during 1924, in addition to those started by voluntary institutions such as the Central Co-operative Anti-malaria Society and the Bengal Health Association. The Governor in Council desires also to record his warm appreciation of the fine work done at the Kala-azar centres of these two latter bodies.

Their humanitarian work is well organized, and their Kala-azar centres are working on sound, efficient and economical lines. Rai Bahadur Dr. Gopal Chandra Chatterjee and Dr. Bhattacharya have deserved well of their generation.

Sanitary Engineering.—Eight water-supply and sewerage schemes were prepared, and seven detailed projects of municipal water-supply and drainage drawn up by the Chief Engineer, Public Health Department, in 1924. Fifteen water-supply and sewerage projects were under consideration, two water-supply and one sewerage scheme were completed, and four water-supply and one sewerage project were partially completed during the year under review. The total capital expenditure on water-supply in 1924 was Rs. 4,28,774, while the total expenditure on municipal drainage and sewerage works was Rs. 4,13,068.

Personal.—Dr. Bentley and Mr. G. B. Williams have again earned the thanks of Government for their efficient administration of their departments.

Dr. Bentley's report is a mine of information which he uses in a striking manner to illustrate those principles or those aspects of public health which have special application to the sanitary conditions of Bengal. Government enforce the appreciative references which these officers make regarding the work of their staffs and desire also to acknowledge the valuable services of the Sanitary Board.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Report on the Winter Rice crop of Bengal, 1925-26.

(Note.—On an average of the five years ending 1922-24, the area under winter rice in Bengal has represented some 18.7 per cent. of the total area under rice in British India.)

Character of the season.—In the second forecast issued in December last, the weather was reviewed up to the end of October as having been good in East and North Bengal, and fair in West Bengal. Since then dry weather was generally favourable for the field operations.

Area.—According to District Officers' estimates, the total area under winter rice amounts to 15,619,300 acres as against 15,589,800 acres in the corresponding forecast of last year.

Outturn.—From the district returns appended, it will be seen that four districts, viz., Bakarganj, Jalpaiguri, Rangpur and Faridpur, report more than a normal crop. Six districts, viz., Khulna, Darjeeling, Bogra, Pabna, Mymensingh and Chittagong, report a normal crop. Eight districts report a crop varying from 83 to 97 per cent., and the rest from 58 to 75 per cent.

As compared with the second forecast, a better crop has been harvested in seven districts, viz., Jessore, Khulna, Hooghly, Darjeeling, Dacca, Chittagong and Noakhali, while in the districts of the 24 Parganas and Midnapore, the crop has deteriorated a little from the previous estimates. In the remaining districts, there has been no change since the second forecast.

According to District Officers' estimates, the provincial outturn works out to 92 per cent. of the normal as against 86 per cent. last year. Taking 12½ maunds as the normal yield of clean grain per acre, the gross yield of the crop for the province is estimated at 6,598,400 tons this year as against 6,156,400 tons in the corresponding forecast of last year.

Director of Agriculture, Bengal (offg.).

APPENDIX I.

Third and Final Report on the Winter Rice Crops of Bengal, 1924-25.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the harvesting generally commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1924-25).	This year (1925-26).	Last year.	This year.		
	Acres.	Acres.	Acres.				
24 Parganas ...	840,800	708,800	749,800	85	88	End of October to November. Normal.	The increase in area is due to timely rainfall. The outturn is below the normal for want of rain in November.
Nadia ...	188,800	180,400	180,800	67	67	Latter part of November. Normal.	The decrease in area is due to want of sufficient rain both at the time of sowing and transplantation. Insufficient and unequal distribution of rainfall account for the fall in outturn.
Murshidabad ...	351,400	378,900	378,300	88	83	Middle of November to middle of December.	The outturn is below the normal owing to insufficient rainfall during the latter part of the season.
Jessore ...	486,800	488,000	474,000	78	72	November. Normal.	Some damage was caused by drought in Bongaon subdivision and in the police-station Bagherpara in Sadar subdivision.
Khulna ...	808,000	740,800	733,700	100	100	Ditto ...	The decrease in area is due to want of timely rainfall and to extended cultivation of jute. The weather has been favourable and a normal outturn has been obtained.
Burdwan ...	731,100	736,800	808,300	100	73	End of November. Normal.	The decrease in area was due to insufficient rain. The unequal distribution of rain at sowing time retarded the growth, but subsequent rain partly mitigated the effects of the deficiency. Insufficient rainfall caused damage to the extent of 35 per cent.
Birbhum ...	804,700	446,100	537,000	93	67	Latter part of November. Normal.	The weather [was] not favourable owing to uneven and insufficient rainfall which caused damage. Late transplantation and drought are responsible for the low outturn.
Bankura ...	440,000	330,000	330,000	76	56	Beginning of December. Normal.	The abnormal decrease in area is due to revision based on settlement records, a large area under transplanted autumn paddy being shown under winter paddy. The outturn is much below the normal owing to damage caused by drought.
Midnapore ...	1,537,100	1,450,000	1,411,800	83	75	November. Normal...	The decrease in area is due to want of rain. The outturn is below the normal owing to drought at sowing time and to rain just before harvesting.
Hooghly ...	382,100	184,400	142,600	88	47	Third week of November. Normal.	The decrease in area is due to inadequate rainfall at the time of transplantation. GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 845L., dated Calcutta, the 18th February, 1926.—The following Report of the Select Committee appointed to consider certain amendments to the Bengal Legislative Council Standing Orders, 1920, is hereby published for general information:—

REPORT OF THE SELECT COMMITTEE APPOINTED TO CONSIDER THE 'AMENDMENTS TO THE BENGAL LEGISLATIVE COUNCIL STANDING ORDERS, 1920, SUGGESTED BY SHAH SYED EMDADUL HUQ, M. L. C.

We, the undersigned members of the Select Committee appointed to consider the amendments to the Standing Orders suggested by Shah Syed Emdadul Huq, M.L.C., have considered the same, and our recommendations in respect thereto are as follows:—

Amendment of Standing Order 6 (1).

We consider that it should also be provided in Standing Order 6 (1) that a member should, as in the case of a first priority resolution, intimate his desire to proceed with a question which has not been answered, as it may very well happen that a question not answered in one session may lose all its force by the time the next session comes round and a member may not wish to put it.

We, therefore, suggest that the amendment of Standing Order 6 (1) should run as follows :—

- (i) line 3, for the words "any resolution" the following shall be substituted, namely :—

"a question which has not been answered or a resolution"

- (ii) lines 5 and 6, before the words "such resolution" the following shall be inserted, namely :—

"Such question shall, if the member intimates in writing not less than fifteen days before the commencement of the next session his desire to proceed with the question, be carried over for reply to the list of questions for the next session and"

Amendment of Standing Order 12, last proviso.

The Committee unanimously accepted the proposed amendment of Standing Order 12, last proviso, namely :—

In Standing Order 12, last proviso, for the word "postponed" the words "carried over" shall be substituted.

[The corresponding provisions of the Indian Arbitration Act (I. A. A.), the English Arbitration Act (E. A. A.) and Schedule to the Civil Procedure Code (Sch., C. P. Code) are indicated in the margin.]

WHEREAS it is expedient to consolidate and amend the law relating to arbitration in British India; It is hereby enacted as follows:—

Short title, extent and commencement.

1. (1) This Act may be called the Indian Arbitration Act, 192 .

(2) It extends to the whole of British India, *except such districts where the Code of Civil Procedure, 1908, is not in force.*

(3) It shall come into force on 192 .

PART I.

• ARBITRATION WITHOUT THE INTERVENTION OF THE COURT.

Definitions.

2. In this Part, unless there is anything repugnant in the subject or context—

(a) "the Court" means the Court which, if the subject-matter submitted to arbitration were the subject of a suit, would have jurisdiction to try the suit; but shall not include a Court of Small Causes;

- (b) "submission" means a written agreement to submit present or future differences to arbitration, whether an arbitrator is named therein or not.

Submission to be irrevocable except by leave of Court.

3. A submission, unless a different intention is expressed therein, shall be irrevocable except by leave of Court. S. 5, I. A. A.

Provisions implied in submission.

4. Submission, unless a different intention is expressed therein, shall be deemed to include the provisions set forth in the First Schedule, in so far as they are applicable to the reference under submission. S. 6, I. A. A.

Reference to arbitrator to be appointed by third person.

5. The parties to a submission may agree that the reference shall be to an arbitrator or arbitrators to be appointed by a person designated either by name or as the holder for the time being of any office or appointment. S. 7, I. A. A.

Illustration.

The parties to a submission may agree that any dispute arising between them in respect of the subject matter of the submission shall be referred to an arbitrator to be appointed by the Bengal Chamber of Commerce, or, as the case may be, to an arbitrator to be appointed by the President for the time being of the Bengal Chamber of Commerce.

Power for the Court in certain cases to appoint an arbitrator, umpire or third arbitrator.

6. (1) In any of the following cases :

S. 8, I. A. A.

(a) where a submission provides that the reference shall be to a single arbitrator, and all the parties do not, after differences have arisen, concur in the appointment of an arbitrator ;

(b) if a single appointed arbitrator neglects or refuses to act, or is incapable of acting, or dies, or is removed, and the submission does not show that it was intended that the vacancy should not be supplied, and the parties do not supply the vacancy ;

(c) where the parties or two arbitrators are at liberty to appoint an umpire or third arbitrator and do not appoint him ;

(d) where an appointed umpire or third arbitrator refuses to act, or is incapable of acting, or dies, or is removed, and the submission does not show that it was intended that the vacancy should not be supplied, and the parties or arbitrators do not supply the vacancy ;

any party may serve the other parties or the arbitrators, as the case may be, with a written notice to concur in appointing an arbitrator, umpire or third arbitrator.

(2) If the appointment is not made within seven clear days after the service of the notice, the Court may, on application by the party who gave the notice, and after giving the other party an opportunity of being heard, appoint an arbitrator, umpire or third arbitrator who shall have the like power to act in the reference and make an award as if he had been appointed by consent of all the parties.

Power for parties in certain cases to supply vacancy.

7. Where a submission provides that the reference shall be to two arbitrators, one to be appointed by each party, then, unless the submission expresses a contrary intention,— S. 9, I. A. A.

(a) if either of the appointed arbitrators refuses to act, or is incapable of acting, or dies, the party who appointed him may appoint a new arbitrator in his place ;

- (b) if, on such a reference, one party fails to appoint an arbitrator, either originally or by way of substitution as aforesaid, for seven clear days after the other party, having appointed his arbitrator, has served the party making default with notice to make the appointment, the party who has appointed an arbitrator may appoint that arbitrator to act as sole arbitrator in the reference, and his award shall be binding on both parties as if he had been appointed by consent :

Provided that the Court may set aside any appointment made in pursuance of clause (b) of this section.

Power to supply vacancy in case of three arbitrators.

8. (1) Where a submission to arbitration provides that the reference shall be to three arbitrators, one to be appointed by each party and the third to be appointed by the two appointed by the parties, then, unless the submission expresses a contrary intention—

(See section 38.)

ENACTMENTS REPEALED.

Year.	No.	Short title.	Extent of repeal.
1889	IX	The Indian Arbitration Act, 1899.	So much as has not been repealed.
1877	I	The Specific Relief Act, 1877.	The last 37 words.
1908	V	The Code of Civil Procedure, 1908.	Section 89, clauses (a) to (f) of section 104 and the Second Schedule.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to amend and consolidate the law relating to Arbitration in British India. The present Arbitration Act came into force on 1st July 1899. Most of its provisions were borrowed from the English Arbitration Act, 1889 (52 and 53 Vict., c. 49). The English Arbitration Act is, however, a consolidated Act, containing provisions both as to arbitration through and outside the Court, while the Indian Arbitration Act confines itself to submissions and awards made without the intervention of Court, and governing only certain Presidency towns and other special local areas. In the last Civil Procedure Code of 1908 arbitration provisions were removed from the main body where they existed before, and made an appenage of the Code in Schedule II. Then, Sir Lawrence Jenkins, a prominent member of the Select Committee who were engaged on redrafting the clauses of the Bill, observed as follows:—

“We have determined, therefore, to leave arbitration clauses much as they are in the present Code, but have placed them in a separate Schedule in the hope that at no distant date they may be transferred to a comprehensive Arbitration Act”.

After the lapse of sixteen years, it is high time that attempt was made to realise that hope. During the interval, conflicting decisions of High Courts have revealed defects which require to be remedied. Sir Norman McLeod C. J. at page 265 of I. L. R. 45 Bombay remarked:—

“The provisions of the Code relating to arbitration were transferred with certain modifications to a separate Schedule in the hope that at no distant date they might be transferred into a comprehensive Arbitration Act. Unfortunately that hope has not been realised with the result that the law relating to arbitration still remains in a most undesirable condition”.

The need for the present piece of legislation has been accentuated now that the dilatoriness of justice in Civil Courts has become so intolerable as to necessitate the appointment of the Civil Justice Committee. All the more imperative, therefore, it becomes that the arbitration law which provides the speediest and cheapest means of administering justice should be placed on a sound basis, purged of all the errors and drawbacks, which a quarter of a century working has brought to light, and that its scattered provisions be brought together into a consolidated whole. Difficulties felt owing to the absence of provisions relating to appeals, and in construing sections 13 to 15 of the Act have been overcome.

The appointed Chambers of Commerce assembled in Bombay in December last represented to Government the necessity of examining the law of arbitration and remedying its defects.

NOTES ON CLAUSES.

PART I.

- Cl. 1. Definitions. In view of the extension of the scope of the present Act, the definition of Court has been altered.
- Cl. 6(b) The word ‘single’ has been added in that sub-clause to give effect to the ruling in *Gopalji Kuverji v. Murarji Jeram* I. L. R. 43 Bombay 809.
- Cl. 8. Has been added on the lines of the new section 16 of the English Administration Act to supply an obvious deficiency.
- Cl. 10. Has been newly added. The want of this clause has been frequently felt when parties to submission require the attendance of witnesses whom they cannot procure without process of Court.
- Cl. 12. At present much confusion has arisen in construing sections 13 to 15 of the Act. Some Courts have held that as soon as an award is filed by the arbitrators it becomes enforceable as a decree though an application to set it aside may be pending. This creates an anomaly, is opposed to the practice obtaining in England, entails great hardship on the defendants and is hardly consonant with justice. It has therefore been thought necessary to enact a provision similar to the one contained in the English Arbitration Act.
- Cl. 13. It is but necessary to enact such a provision distinctly as its absence is likely to lead to unnecessary litigation.
- Cl. 16(2). Is enacted to meet the difficulty created by the decisions in 16 Sind Law Reporter page 174 F. B. and I. L. R. 45 Bombay page 245.
- Cl. 18. At present considerable difficulty is felt in the absence of a provision whereby the Court can compel the arbitrator to state a point of law for the opinion of the Court. And hence this provision.

PART II.

- Cl. 10. It is desirable to extend arbitration provisions to proceedings of a civil nature other than suits.
- Cl. 25. It is necessary to make a clear provision that the Court can extend time even after the award has been made.

PART III.

- Cl. 33. At present the Arbitration Act applies to Presidency towns and to Allahabad, Rangoon and Karachi. In Presidency towns and Rangoon appeals are provided in the Charter, so in Allahabad by rules. In Karachi it has been held that no appeal lies. In the course of proceedings under the Indian Arbitration Act many important and complicated questions arise. It is therefore necessary to provide at least one appeal from the Court's orders. Moreover as the scope of the Act has now been extended to the whole of British India the provision as to appeals is necessary. Section 104 did provide appeals against orders under the Second Schedule which applied to the whole of British India. Some of the clauses of that section have been omitted as being out of place in the amended provisions of this Bill.

Power to make rules.

7. The Local Government may make rules under this Act for the punishment of offenders and for the better preservation of the fish fry.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill has been introduced to put a stop to the destruction of fish fry in Bengal. Fishes are daily becoming scarce and have now-a-days become almost a luxury, and not a necessity, as they were in former days. The population of the province is gradually increasing and the supply of fish has failed to keep pace with the rapid growth of the population. In this province fish is one of the chief articles of consumption, nay, it is an indispensable article of food to the Bengalees. *Beels* and navigable rivers are being gradually silted up, while new tanks are not being excavated in large numbers as before. There being no law for the preservation of fish fry, they are being destroyed wantonly. These fry, if they can be preserved, will be able to increase the supply of fish gradually, and remove one of the chief wants of the Bengalees. An Act on these lines has become an urgent necessity, and hence it is introduced.

Section 1—Gives the designation and the scope of the Act.

Section 2, clause 2.—Fish fry come into being from the month of *Baisakh* every year and are not developed till the month of *Asharh*, as they flock together till that time, and hence, for the protection of these undeveloped fry, this definition has been inserted.

Section 3.—Fish fry are caught or destroyed and are sometimes used as articles of human consumption, even in this undeveloped state. To prevent this, this section has been inserted.

Section 4.—To prevent the fish fry from being sold as an article of consumption or for trade purposes, this section has been introduced.

But selling these fish fry for fish cultivation in other waters has been made an exception.

Section 5.—Unless some provision for punishment is made in this Act, the practice of destroying fry will not be put a stop to; to put a stop to this practice effectively provision has been made for a light punishment, *i.e.*, to levy a fine which may not exceed Rs. 10 or in default 3 days' simple imprisonment on those committing any act towards destroying the fish fry or reducing their number.

Section 6.—Provision has been made in this section for means of bringing the offenders to book promptly.

Section 7.—In this section, provision is made for better administration and justice.

STATEMENT OF OBJECTS AND REASONS.

The Indian Bar Committee made the following recommendations in regard to *vakalatnamas* :—

1. *Vakalatnamas*.—Distinctions between barristers and vakils should be abolished. All practitioners should be required to file *vakalatnamas* when they act, but should have the option of filing a memorandum of appearance when they merely appear and plead. This should not apply to advocates who under the existing rules can only appear on the Original Sides of the Calcutta, Bombay and Madras High Courts on the instructions of an attorney. (Paragraphs 18, 21 and 23 of the Report.)

2. High Courts should be given power to determine the Courts and classes of cases in which a memorandum of appearance might be substituted for a *vakalatnama* where a practitioner acts on behalf of an accused person. (Paragraph 24 of the Report.)

3. The proposed memorandum of appearance might be made liable to the same Court fee as a *vakalatnama* to avoid loss of revenue. (Paragraph 24 of the Report.)

These recommendations have been generally accepted by Local Governments and High Courts, and this Bill proposes to give effect to them with the following exceptions :—

- (a) In lieu of the proposed exception of advocates appearing on the Original Side of the Calcutta, Bombay and Madras High Courts on the instructions of an attorney, a general provision has been included with the object of securing that, when a *vakalatnama* has been filed by a pleader duly appointed to act in Court in the proceedings, a pleader instructed by him to plead only will not be required to file even a memorandum of appearance.
- (b) No provisions are included in the Bill in regard to the filing of memoranda of appearances in criminal cases. The Government of India consider that this question should be left to be decided by the High Courts concerned, but they doubt whether such memoranda should be required to be stamped.
- (c) The question of whether memoranda of appearances in civil cases should be stamped is omitted from the Bill, as it is considered that it should be decided by the local Legislatures concerned by amendment of the Schedule of the Court Fees Act, 1870.

Advantage has been taken of this opportunity to embody in Order III of Schedule I to the Code of Civil Procedure the substance of the provision of sub-section (3) of section 10 of the Bombay Pleaders Act and of rule 4 (4) in Order III of the Schedule made by the High Court of Madras under section 122. This will mean that a separate *vakalatnama* will not be required for appearances in appeals, etc., or for getting copies of documents and so on after the proceedings in the original suit are ended.

(a) the District Court having jurisdiction to entertain an application under this Act for an order appointing or declaring a person to be a guardian; or

(b) where a guardian has been appointed or declared in pursuance of any such application—

(i) the Court which, or the Court of the officer who, appointed or declared the guardian or is under this Act deemed to have appointed or declared the guardian; or

(ii) in any matter relating to the person of the ward the District Court having jurisdiction in the place where the ward for the time being ordinarily resides; or

(4) When any proceedings are transferred under this section, the Judge of the District Court may, by order in writing, declare that the Court of the Judge or officer to whom the proceedings are transferred shall for all or any of the purposes of this Act, be deemed to be the Court which appointed or declared the guardian."

Amendment of section 47, Act VI of 1890.

4. In section 47 of the said Act, the word "District" shall be omitted.

Repeals.

5. Clause (b) of sub-section (2) of section 19 of the Central Provinces Courts Act, 1917, clause (b) of sub-section (2) of section 30 of the Punjab Courts Act, 1918, and clause (b) of sub-section (2) of section 31 of the Oudh Courts Act, 1925, are hereby repealed.

C. P. Act I of 1917.
Pun. Act VI of 1918.
U. P. Act IV of 1925.

STATEMENT OF OBJECTS AND REASONS.

Section 4 of the Guardians and Wards Act, 1890 (VIII of 1890), defines "the Court",—

- (i) in respect of an application to appoint or declare a guardian, as the District Court having jurisdiction to entertain the application; and
- (ii) in all proceedings subsequent to the appointment or declaration of the guardian, as the Court which appointed or declared the guardian, or, in any matter relating to the person of the ward, as the District Court having jurisdiction in the place where the ward for the time being ordinarily resides.

Under section 30 of the Punjab Courts Act, 1918, section 31 of the Oudh Courts Act, 1925, and section 19 of the Central Provinces Courts Act, 1917, the High Court, Chief Court and the Judicial Commissioner's Court, respectively, may authorise, by general or special order, any Subordinate Judge to take cognizance of, or any District Judge to transfer to a Subordinate Judge under his control, any proceedings under the Guardians and Wards Act, 1890.

In order to lighten the work of District Judges, the Civil Justice Committee recommended that similar provisions should be inserted in the Civil Courts Acts in force in other provinces. Local Governments and High Courts were consulted upon the advisability of adopting the recommendation and also upon the suggestion that, if the recommendation was accepted, effect should be given to it by central legislation, as it affected the jurisdiction of High Courts of Judicature. The recommendation and the suggestion have met with general acceptance.

2. The Bill gives effect to the proposals of the Committee. Under it the District Judge will have power to transfer all the proceedings relating to particular estates to be disposed of by a Judge of a Court subordinate to him who has been especially empowered and also the proceedings in regard to any particular matter connected with an estate.

The Bill further repeals the connected provisions in the various local laws.

The following Bill was introduced in the Legislative Assembly on the 21st January, 1926 :—

No. 4 OF 1926.

A Bill to resolve certain doubts as to the powers, in regard to the attachment of immoveable property, of Provincial Small Cause Courts.

WHEREAS it is expedient further to amend the Provincial Small Cause Courts Act, 1887, and the Code of Civil Procedure, 1908, for the purpose of resolving certain doubts which have arisen as to the powers, in regard to the attachment of immoveable property, of Courts constituted under the Provincial Small Cause Courts Act, 1887, and of Courts exercising the jurisdiction of a Court of Small Causes under that Act; It is hereby enacted as follows :—

IX of 1887.

V of 1908.

IX of 1887.

Short title.

1. This Act may be called the Small Cause Courts (Attachment of Immoveable Property) Act, 1926.

Amendment of section 17, Act IX of 1887.

2. (1) In sub-section (1) of section 17 of the Provincial Small Cause Courts Act, 1887, for the words beginning with the words "The procedure" and ending with the words "are applicable" the following shall be substituted, namely :—

IX of 1887.

"The procedure prescribed in the Code of Civil Procedure, 1908, shall, save in so far as is otherwise provided by that Code or by this Act".

V of 1908.

(2) In sub-section (2) of the same section, for the figures "253" the figures "145" shall be substituted, and after the words "Code of Civil Procedure" the figures "1908" shall be added.

Amendment of section 7, Act V of 1908.

3. In clause (b) of section 7 of the Code of Civil Procedure, 1908 (hereinafter referred to as the said Code), for the words "so far as they relate to injunctions and interlocutory orders" the following shall be substituted, namely :—

V of 1908.

"so far as they authorise or relate to—

- (i) orders for the attachment of immoveable property,
- (ii) injunctions,
- (iii) the appointment of a receiver of immoveable property, or
- (iv) the interlocutory orders referred to in clause (e) of section 94".

Amendment of Order XXXVIII in the First Schedule to Act V of 1908.

4. To Order XXXVIII in the First Schedule to the said Code, after rule 12 the following rule shall be added, namely :—

Small Cause Court not to attach immoveable property.

"13. Nothing in this order shall be deemed to empower any Court of Small Causes to make an order for the attachment of immoveable property."

STATEMENT OF OBJECTS AND REASONS.

Under section 7 of the Code of Civil Procedure, 1908, so much of the body of the Code as relates to—

- (i) suits excepted from the cognizance of a Court of Small Causes ;
- (ii) the execution of decrees in such suits ;
- (iii) the execution of decrees against immoveable property ;

and sections 9, 91, 92, 94 and 95 (so far as these two sections relate to injunctions and interlocutory orders), and sections 96 to 112 and 115 do not extend to Courts constituted under the Provincial Small Cause Courts Act, 1887, or to Courts exercising the jurisdiction of a Court of Small Causes under that Act. Section 15 (1) of the Provincial Small Cause Courts Act, read with the Second Schedule to that Act, provides for the exception of suits relating to immoveable property from the jurisdiction of a Court of Small Causes. In view of conflicting decisions on the question whether such a Court has jurisdiction to order an attachment of immoveable property before judgment, the whole question was considered in detail by a Full Bench of the Calcutta High Court in the case *Barada Kanta Shaha Ray vs. Sheikh Muji-ud-di* (52 Calc. 275). The Hon'ble Judges constituting the Bench held by a majority that a Court of Small Causes has such jurisdiction, but expressed a doubt as to the intention of the Legislature in the matter when the Code was passed in 1908.

2. Before 1908, except possibly for a short period, a Court of Small Causes never exercised any such jurisdiction, and when the present Code of Civil Procedure was enacted in 1908, it appears that the Legislature did not intend to alter the pre-existing law. The Bill proposes to make it clear that a Provincial Small Cause Court has not the power referred to.

"toy cannons, air guns and air pistols for the time being excluded, in any part of British India, from the operation of all the prohibitions and directions contained in the Indian Arms Act, 1879: and bows and arrows".

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to give effect to certain minor amendments which it is proposed to make in Schedule II of the Indian Tariff Act, 1894. The proposals are dealt with seriatim below. They are included in a separate Tariff Bill instead of in the Finance Bill, because they are not important from the revenue point of view and have not been made primarily with reference to the revenues of 1925-27.

2. *Cement*.—The present duty on cement is an *ad valorem* one of 15 per cent. assessed on a tariff valuation. The price of cement has shown a tendency to fall. The tariff valuation for 1926 has been reduced from Rs. 60 to Rs. 55 per ton, thereby reducing the duty payable from Rs. 9 to Rs. 8·4 a ton. It was clear from the report of the Tariff Board on Cement that imported cement can well bear an import duty of Rs. 9 a ton, and in order to stabilise the revenue it is proposed to substitute a specific duty of Rs. 9 per ton for the existing *ad valorem* duty of 15 per cent.

3. *Printer's ink*.—In its report, the Tariff Board, while finding that the case for protection of the Printer's Ink Industry had not been justified, found that under the existing Tariff Schedule the industry suffers from a direct disability, since the import duty on printer's ink is at the concession rate of 2½ per cent. *ad valorem*, and the duties on the necessary constituents are at the rate of 15 per cent. *ad valorem*. This disability the Board considers would be removed if the duty on printer's ink be raised to 5 per cent. The Government of India accept this conclusion and now propose to give effect to it.

4. *Saccharine*.—Three years ago the duty on saccharine was raised from 25 per cent. *ad valorem* to a specific rate of Rs. 20 a lb., which was approximately the duty then payable on a quantity of sugar of equivalent sweetening effect. This was, however, an extremely heavy rate on an *ad valorem* basis, and its imposition has served to encourage smuggling rather than increase revenue or check imports. It is believed that a reduction is needed (a) to protect Government revenues, and (b) to place trade on a healthier basis. It is accordingly proposed to reduce the duty to Rs. 5 per lb. Saccharine tablets are mostly used on medical prescription, and it is proposed to subject them to the specific duty or the ordinary *ad valorem* one on pharmaceutical preparations, whichever is higher.

5. *Handlooms and specified parts thereof*.—It is proposed to reduce the duty from 15 to 2½ per cent. *ad valorem* on handlooms and most component parts. The parts in question are at present assessable at 15 per cent. or 2½ per cent. according as they are or are not of shapes or sizes which can be used in handlooms. The change is generally advocated by Local Governments in the interests of handloom weavers, whilst the differentiation in treatment between parts for handlooms and machine looms, etc., causes much inconvenience to customs administration, incommensurate with the revenue at stake since imports of these articles for handloom purposes are very small.

6. *Hay presses*.—It is the policy of the Government of India to encourage the development of agriculture by permitting the free import of agricultural machinery. On the advice of the Agricultural Adviser to Government, who states that hay presses are now coming into more general use, it has been decided in accordance with this policy to admit them into India free of duty.

7. *Sticklac*.—It is proposed to abolish the import duty of 15 per cent. on this article as being a raw material of an important industry. The shellac industry in India is experiencing increased competition in the world's markets from synthetic resinous compounds and from lac derivatives manufactured in America and Germany from sticklac exported from Siam. The effect of the present import duty is to raise still further the cost of lac to Indian manufacturers when the Indian lac crop is short; and when the local crop is plentiful, there are practically no imports and consequently no revenue. The duty therefore serves no useful purpose.

8. *Lubricating oils.*—The proposal is to substitute a specific duty of one anna and four pies per gallon for the existing *ad valorem* duty of $7\frac{1}{2}$ per cent. The assessment of duties on these oils on an *ad valorem* basis is a constant source of difficulty and dispute at Custom Houses owing to the number of grades and varying values of these oils. The difficulty is increased owing to the trade custom whereby direct contracts at special rates are made with large consumers rendering thereby the determination of market-values as required by section 30 of the Sea Customs Act, a matter of some difficulty. Specific duties would seem to be more appropriate than *ad valorem* rates and are in fact adopted by most countries for these articles. The rate proposed has been determined after careful inquiry so as not to be high on heavier engine oils. For the sake of uniformity, it is proposed also to change the duty on batching oil to a specific one of Rs. 10 per ton. This is exactly the rate at present in force on a tariff valuation basis.

9. *Arms.*—Schedule II of the Indian Arms Rules, 1924, defines the weapons which are subject to the Indian Arms Act, others being either toys or curios. The only items in the Tariff Schedule referring to firearms are items 12, 42 and 126 which do not differentiate between weapons of offence or defence and those which are merely toys, curios or ornaments with the result that all these are liable to a duty of Rs. 15 each. It is proposed to alter the relevant items of the Tariff Schedule to make it conform with the Indian Arms Rules, 1924, thereby placing toy pistols, etc., curios, etc., under their proper heading. The opportunity has also been taken to improve the drafting of item 42.

10. The amendments are intended to come into effect from the seventh day after this Bill becomes law.

To—The Commissioner of the Dacca Division.

With reference to your letter No. 676J., dated the 10th February 1926, reporting that Sreejukta Jyotibala Talukdar, widow of late Babu Upendra Mohan Talukdar of Taratia in the Munshiganj subdivision, has contributed a sum of Rs. 25,000 in cash to the District Board of Dacca for the establishment of a charitable dispensary at Baligaon in the Munshiganj subdivision, I am directed to request that you will be so good as to convey the thanks of Government to the donor for her liberality and public spirit.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Wheat Crop of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under wheat in Bengal has represented some 0.4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1923-24, averaged (a) 42.2 and (b) 14.7 per cent. respectively).

Character of the season.—The rainfall in the months of September and October was sufficient for the preparatory tillage. Sowings, in consequence, commenced in the usual time. During the month of December the crop flourished, but since then drought has interfered with its development, especially in the important districts of Malda, Nadia, Murshidabad and Rajshahi. The present outlook, on the whole, is generally fair.

Acreage.—According to the District Officers' estimates, the total area sown is 130,600 acres this year as against 126,200 and 126,400 acres reported respectively in the corresponding and final forecasts of last year.

Outturn.—The provincial outturn, as worked out from district estimates, is 78 per cent. of the normal as against 81 and 64 per cent., respectively, in the corresponding and final forecasts of last year.

R. S. FINLOW,

Director of Agriculture, Bengal.

DACCA,

The 24th February 1926.

STATEMENT OF OBJECTS AND REASONS.

The District Boards and Municipalities in Bengal have for some time past made a grievance of the fact that although their roads are seriously damaged by the ever-increasing motor-traffic, they are unable to impose taxation on motorists in spite of the fact that in municipal areas the owners of all other kinds of vehicles are required to take out licenses on payment of fees. The Indian Motor Vehicles Act, 1914 (VIII of 1914), provides for the registration of motor vehicles both in Calcutta and in the mufassal: fees are levied for such registration, but the proceeds are credited to provincial revenues. The Calcutta Corporation, in addition to the fees imposed under the Motor Vehicles Act, requires the owners of motor vehicles to take out licenses on payment of fees. But mufassal Municipalities and District Boards have no such power under the existing Bengal Municipal and Local Self-Government Acts. In the Bengal Municipal Bill, 1925, power was taken for the Municipalities to tax motor vehicles, but the motion for the introduction of this Bill was rejected by the Bengal Legislative Council at the last December session. The general amendment of the Local Self-Government Act cannot be taken up immediately though steps are being taken to prepare a Bill. It is therefore proposed to take power in the present Bill for District Boards and Municipalities to tax motor vehicles kept within their jurisdiction.

The sub-joined Notes explain the clauses of the Bill in detail.

KSHAUNISH CHANDRA RAY,

Member-in-charge.

CALCUTTA:

The 23rd December, 1925.

NOTES ON CLAUSES.

Clause 2.—The definition of “motor vehicles” in sub-clause (2) has been taken from the Indian Motor Vehicles Act, 1914.

The definition of “year” in sub-clause (3) has been made wide enough to allow the year to be calculated from any date other than the 1st day of April. This is based on section 6 (19) of the Bengal Municipal Act, 1884.

Clause 3.—This clause authorises a local authority to impose separate rates of taxes on motor vehicles which are kept for hire and on private vehicles. The tax is to be recovered in two half-yearly instalments.

Clause 4.—Sub-clauses (1) and (2) provide for the rates at which the tax is to be levied. Sub-clause (3) indicates the vehicles which are to be exempt from taxation.

Clause 5.—The local authority has been given power to exempt other motor-vehicles or any special classes of motor vehicles from taxation.

Clause 6 provides for the levy of the tax at the rate specified until a different rate of tax is imposed, and is based on section 132 of the Bengal Municipal Act, 1884.

Clause 7 requires owners of motor vehicles to submit half-yearly statements containing descriptions of motor vehicles liable to the tax. This is based on section 133 of the Bengal Municipal Act, 1884.

Clause 8 provides for the payment of an amount less than the full tax for the half-year in respect of motor vehicle acquired during the half-year.

Clause 9 provides for the grant of a license on payment of the tax, which will remain in force for the half year in which the payment is made.

Clause 10 provides that in the absence of the owner the person in possession of the vehicle for the time being shall be liable to pay the tax.

Clause 11 empowers the local authority to compound with persons keeping motor vehicles for hire for the payment of a certain sum instead of the tax.

Clause 12 provides that the local authority shall keep a list of persons licensed.

Clause 13 empowers authorised persons to inspect garages, etc., and is based on section 140 of the Bengal Municipal Act.

Clause 14 confers power on the local authority to seize unlicensed motor vehicles and to dispose of the same in certain circumstances. It is based on section 172 of the Calcutta Municipal Act, 1923.

Clause 15 authorises the Chairman or Vice-Chairman of a local authority to summon persons for examination as to the number and description of the motor vehicles for which such persons are liable to be taxed.

Clause 16 prohibits the levy of more than one tax for the same period from the same party in respect of a motor vehicle which is used in an area outside the jurisdiction of the local authority.

Clause 17 deals with the apportionment of the tax between two or more local authorities within the jurisdiction of which a motor vehicle is kept or used.

Clause 19 declares certain servants of local authorities to be public servants.

Clause 20 deals with the realisation of the moneys due under the proposed Act. In municipal areas, such dues are to be realised in the manner provided for in the Bengal Municipal Act, 1884, for realisation of the taxes. In other areas the provisions of the Bengal Village Self-Government Act, 1919, are to apply for the realisation of the dues.

Clause 21 provides for the crediting of all sums realised to the respective local funds.

Clause 22 empowers the Local Government to make certain rules.

Clause 23 provides for the imposition of a fine on a person who keeps a motor vehicle without a license.

Clause 24 renders a person who fails to forward the statements of his motor vehicles required by sections 7 (1) and 8 liable to a fine.

Clause 25 imposes a penalty in a case of failure to comply with a summons under section 15.

No. 51.—*The 6th March 1926.*—The following draft of rules and schedule of rates of tolls, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make and fix, for the Damodar Channel joining the Katcha and Baleswar rivers in the Perojpur subdivision of the Bakarganj district, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 22nd April 1926, and any objections or suggestions received before that date will be considered :—

Draft rules and schedule of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj, on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below :—

Class I.—To include all vessels of the types of country boats, including saltees and haptors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of $12\frac{1}{2}$ maunds, any remainder of less than $12\frac{1}{2}$ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.** The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting remainder of less than 500 maunds. In the case of steamers and motor boats, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjha or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

- | | | |
|---|--------|-----------------------|
| (1) On all vessels empty or laden, per hundred maunds | | Eight annas. |
| (2) On all vessels empty or laden, for 12½ maunds or less | | One anna. |
| (3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth | | Four annas each raft. |

Tolls will be levied at Hulerhat and Perojapore.

13. For boats frequently using the canal such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. *Saltees.*—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessel of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canal.

12. The rates of toll shall be as follows:—

- | | |
|--|-----------------------|
| (1) On all vessels, empty or laden, per 100 maunds ... | Eight annas. |
| (2) On all vessels, empty or laden, for 12½ maunds or less ... | One anna. |
| (3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and five feet in breadth ... | Four annas each raft. |

Tolls will be levied at Lebukhali and Lowkati kismat.

13. For boats frequently using the canal such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at ten times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

R.-26.—In exercise of the powers conferred by Regulation 15 in Schedule IV to the Superior Civil Services (Revision of Pay and Pensions) Rules, 1924, the Governor General in Council is pleased to direct that the following shall be added as Regulation (9) at the end of Part I of the Supplementary Regulations published in Finance Department notification No. F.-35-C. S. R.-25, dated the 6th February 1925 :—

(9) An officer, who at the time of proceeding on leave declares his intention of retiring from service, is entitled to draw on the Passage Fund for single passages only. If, however, no such declaration is made but the officer draws on the Passage Fund for return passages whether for himself, for his wife or for his children and retires on the termination of leave, he should return the unused half of the return ticket or tickets which have not been utilised, to the Audit Officer concerned in India who will watch for the return of the unused halves of the return tickets, and obtain from the Steamship

Company concerned a refund in respect of the return passage or passages: If however the return halves are actually utilised, the Audit Officer should realise from the officer concerned, the cost thereof. If in any such case the return half of the ticket or tickets is not utilised, it should be returned to the Audit Officer concerned in India. If the officer does not actually join duty, the entire cost of the return passage, or the cost of the journey to India only, according as the return half of the ticket or tickets is or is not used, will be recovered from him.

When an officer takes return passages for himself and his wife and / or children and returns to duty in India leaving his wife and / or children at home or when an officer while on duty in India sends his wife and or children out of Asia on return tickets of which the second halves are not utilised, he should return the unused half of the return ticket or tickets to the Audit Officer concerned in India. If, however, the second halves of the return tickets are actually utilised, the officer should make a declaration in due course to the Audit Officer that the tickets have actually been utilised.

No refund will be made by a Steamship Company under this rule except to the Audit Officer, who will make the necessary adjustment of the amount between the officer and the Government if the cost of the passage involved or any portion thereof has been borne by the officer.

- (2) They apply to Pilgrim Ships and shall come into force on the 1st January 1927 from which date rules 6 to 9 and 16 and 17 of the rules published with the notification of the Government of India in the Home Department, No. 1902 (Sanitary), dated the 14th October 1910, shall cease to have effect.

2. In these rules unless there is anything repugnant in the subject or context :—

Definitions.

(1) "Approved" means approved by the local Government.

(2) "Boat-deck" means any deck on which boats are carried and of which the space required for the stowage of boats under rule 19 occupies half or more of the length or breadth of such deck.

(3) "Daylight" means the period from one hour before sunrise until one hour after sunset.

(4) "Length" in connection with a ship means the registered length of the ship.

3. (1) Every pilgrim ship shall, subject to the provisions of sub-rule (1) of rule 27 be provided, in accordance with its length, with the number of sets of davits specified in column A of the

Table in the Appendix to these rules :

Provided that the local Government may, where it appears to them necessary, having regard to the height at which the boats are carried above the centre of the load line disc, and to the other circumstances of the case, require a ship of this class to carry in lieu of, or in addition to davits, some other approved form of launching appliances, or such arrangements for launching boats as may be, in their opinion, effective. *

(2) (a) Pilgrim ships launched before the 1st January 1927, shall carry lifeboats, of which at least one shall be a motor boat, in such number and of such aggregate capacity as shall be sufficient to accommodate fifty per cent. and in the case of those launched on or after the 1st

Lifeboats.

January 1927, seventy-five per cent. of the total number of persons which is carried or which the ship is certified to carry, whichever number is the greater.

(b) Each set of davits shall have a lifeboat of class I attached to it, and of these lifeboats at least the minimum number specified in column B of the Table in the Appendix to these rules shall be open boats. The minimum aggregate cubic capacity of the lifeboats to be attached to the davits shall be in accordance with the scale specified in column C of the table in the said Appendix.

(c) Any additional lifeboats which may be required to make up the total lifeboat accommodation required by clause (a) may be boats of class I or class II.

Buoyant apparatus.

number of persons which is carried, or which the ship is certified to carry, whichever number is the greater, approved buoyant apparatus shall be carried sufficient for those persons for whom accommodation is not provided in lifeboats.

5. Notwithstanding anything contained in clause (a) of sub-rule (2) of rule 3 or in rule 4 the master or owner of a pilgrim ship may carry on

Exemptions in case of specified voyages.

6. If the ship is under 400 feet in length, at least twelve approved lifebuoys shall

Lifebuoys.

be carried ; if 400 feet or over, but under 600 feet, at least eighteen approved lifebuoys shall be carried ; if 600 feet or over, but under 800 feet, at least twenty-four approved life-buoys shall be carried ; and if 800 feet or over, at least thirty approved lifebuoys shall be carried.

7. One approved lifejacket shall be carried for each person on board.

Lifejackets.

8. The local Government shall have power in general or in any particular case, to

Power to accept alternatives

accept any boat, buoyant apparatus, other life-saving appliance or arrangement, in lieu of a life-saving appliance or arrangement required by these rules, subject to such conditions as they may impose, if they are satisfied that under those conditions it will be as effective as the appliance or arrangement required by these rules :

Provided that in the case of a ship launched on or after 1st January 1927, no life-saving appliance shall be accepted in lieu of a lifeboat required by these rules, except some other approved type of lifeboat.

Classification of life-boats.

9. For the purposes of these rules lifeboats are arranged in the following classes :—

CLASS I.

A.—Open lifeboats with internal buoyancy only.

The buoyancy of a wooden boat of this type shall be provided by water-tight air-cases, the total volume of which shall be at least equal to one-tenth of the cubic capacity of the boat.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

B.—Open lifeboats with internal and external buoyancy.

The internal buoyancy of a wooden boat of this type shall be provided by water-tight air-cases, the total volume of which shall be at least equal to seven and a half per cent. of the cubic capacity of the boat.

If the external buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousandths of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with external buoyancy of cork.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

C.—Pontoon lifeboats having a well deck and fixed watertight bulwarks.

The area of the well deck of a boat of this type shall be at least thirty per cent. of the total deck area. The height of the well deck above the water line at all points shall be at least equal to one-half per cent. of the length of the boat, this height rising to one and a half per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least thirty-five per cent.

CLASS II.

A.—Open lifeboats having the upper part of the side collapsible.

A boat of this type shall be fitted both with watertight air-cases and with external buoyancy the volume of which for each person which the boat is able to accommodate shall be at least equal to the following amounts :—

	Cubic feet.
Air-cases	1.5
External buoyancy (if of cork) ...	0.2

The minimum freeboard of boats of this type is fixed in relation to their length; it shall be measured vertically to the top of the solid hull at the side amidships from the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts :—

Length of the Boat in feet.	Minimum Freeboard in inches.
26	8
28	9
30	10

The freeboard of boats of intermediate lengths shall be found by interpolation.

B.—Pontoon lifeboats having a well deck and collapsible bulwarks.

All the conditions laid down for boats of Class IC shall be applied to boats of this type, which differ from those of Class IC only in regard to the bulwarks.

C.—Pontoon lifeboats having a flush deck and collapsible bulwarks.

The minimum freeboard of boats of this type is independent of their length and depends only upon their depth. The depth of the boat shall be measured vertically from the underside of the garboard strake to the top of the deck at the side amidships and the freeboard shall be measured from the top of the deck at the side amidships to the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts which are applicable without correction to boats having a mean sheer equal to three per cent. of their length :—

Depth of Boat in inches.	Minimum Freeboard in inches.
12	2½
18	3½
24	5½
30	6½

For intermediate depths the freeboard shall be obtained by interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard shall be obtained by adding to the figures in the table one-seventh of the difference

between the standard sheer and the actual mean sheer measured at the stem and stern post; no deduction shall be made from the freeboard on account of the sheer being greater than the standard sheer or on account of the camber of the deck.

10. (1) A motor boat carried as part of the statutory life-saving appliances of a pilgrim ship shall comply with the following conditions:—

Motor boats.

- (a) It shall comply with the requirements for a lifeboat of Class I, and proper appliances shall be provided for putting it into the water speedily.
- (b) It shall be adequately provided with fuel, and keep so as to be at all times ready for use.

(2) In fixing the volume of the internal buoyancy and, where fitted, the external buoyancy, regard shall be had to the difference between the weight of the motor and its accessories, and the weight of the additional persons which the boat could accommodate if the motor and its accessories were removed.

(3) Notwithstanding anything contained in this rule, a lifeboat fitted with the Fleming gear shall be accepted in lieu of a motor boat, provided that it otherwise complies with the requirements specified in the said sub-sections.

11. (1) All boats shall be properly constructed, and shall be of such form and proportions that they shall have ample stability in a seaway, and sufficient freeboard when loaded with their full complement of persons and equipment. They shall be fitted and arranged to the satisfaction of the local Government.

Construction of life boats.

(2) The structural strength of the boats shall be to the satisfaction of the local Government. In the case of ships launched on or after the 1st January 1927, the strength shall be sufficient to permit of the boats being safely lowered into the water with the full complement of persons and equipment on board.

(3) In all open boats, all thwart and side seats shall be fitted as low in the boat as practicable, and shall provide seating accommodation for all persons the boat is deemed fit to carry, and bottom boards shall be fitted so that the thwarts shall not be more than 2 feet 9 inches above them.

Seating accommodation.

(4) Internal buoyancy apparatus shall be constructed of copper or yellow metal of not less than 18 ounces to the superficial foot, or of other durable material, and in open boats of Class I may be placed along the sides or at the ends of the boat, but not in the bottom of the boat. External buoyancy apparatus may be of cork or of any other equally efficient approved material; the use of rushes, cork shavings, loose granulated cork, or any other loose granulated substance, and the use of apparatus dependent upon inflation by air, is prohibited.

Buoyancy

Sheer.

(5) Open lifeboats of Class I shall have a mean sheer at least equal to four per cent. of their length.

(6) Pontoon lifeboats may be built of wood or metal. If constructed of wood, they shall have the bottom and deck made of two thicknesses with textile material between; if of metal, they shall be divided into watertight compartments with means of access to each compartment and shall be provided with at least two bilge pumps.

Pontoon lifeboats.

(7) All pontoon lifeboats shall be fitted with efficient means for quickly clearing the deck of water. The orifices for this purpose shall be such that the water cannot enter the boat through them when they are intermittently submerged. The number and size of the orifices shall be determined by the local Government for each type of boat by a special test.

For the purpose of this test:—

(a) The pontoon boat shall be loaded with a weight of iron equal to that of its complement of persons and equipment;

(b) In the case of a boat 28 feet in length, two tons of water shall be cleared from the boat in a time not exceeding the following:—

Class IC	60 seconds.
Class IIB	60 "
Class IIC	20 "

In the case of a boat having a length greater or less than 28 feet the weight of water to be cleared in the same time shall be for each type directly proportional to the length of the boat.

(8) No boat shall be accepted as a lifeboat the buoyancy of which depends upon the previous adjustment of one of the principal parts of the hull.

(9) All boats shall be fitted for the use of a steering oar.

(10) All boats shall be permanently marked to the satisfaction of the local Government in such a way as to indicate plainly their dimensions and the number of persons for which they are approved. Boats that have been properly marked need not be re-measured, unless there is reason to believe that the marks have been tampered with or are otherwise defective or improper.

Marking of lifeboats.

12. (1) The number of persons which a lifeboat shall be deemed fit to carry shall be equal to the greatest whole number obtained by dividing the capacity of the boat in cubic feet, or the surface of the boat in square feet, as the case may be (calculated as provided by rules 13 and 14), by the standard unit of capacity, or unit of surface, defined below.

(2) The cubic capacity in feet of a boat in which the number of persons is determined by the surface shall be assumed to be ten times the number of persons which the boat is authorised to carry.

(3) The standard units of capacity and surface are as follows :—

Units of capacity.				Cubic feet.	
Class IA	10
Class IB	9
Units of surface.				Square feet.	
Class IIA	3½
Class IIC		
Class IC	34
Class IIB		

(4) The local Governments may accept a smaller divisor for pontoon boats of Class IC and Class IIB, if they are satisfied after trial that the number of persons for whom there is seating accommodation in the boat in question is greater than the number obtained by applying the above divisor, provided always that the divisor adopted in place of 3½ shall never be less than 3.

(5) The number of persons obtained by the above rules shall be reduced :—

(i) If it is greater than the number of persons for which there is proper seating accommodation, the latter number being determined in such a way that the persons when seated do not interfere in any way with the use of the oars, or

(ii) If, in the case of boats other than open boats of Class I, the freeboard when the boat is fully loaded is less than the freeboard required by these Rules.

(6) If the Government Surveyor is doubtful as to the number of persons any boat is fit to carry he may require the boat to be tested afloat with the intended number of persons on board.

(7) The local Government may limit the number of persons to be allowed in boats with very fine ends and in boats very full in form.

(8) Two persons of the age of one year or upwards and under the age of twelve years shall be reckoned as one person.

13. (1) In the case of an open boat of Class I the cubic capacity shall be determined by the following formula :—

$$\text{Capacity} = \frac{l}{12} (4A + 2B + 4C).$$

l denotes the length of the boat in feet from inside of the planking or plating at the stem to the corresponding point at the stern post; in the case of a boat with a square stern the length is measured to the inside of the transom.

A, B, C denote respectively the areas of the cross-sections at the quarter length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing l into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas A, B, C shall be deemed to be given in square feet by the successive application of the following formula to each of the three cross-sections :—

$$\text{Area} = \frac{h}{12} (a + 4b + 2c + 4d + e).$$

h denotes the depth measured in feet inside the planking or plating from the keel to the level of the gunwale, or, in certain cases to a lower level, as determined hereafter.

a, b, c, d, e denote the horizontal breadths of the boat measured in feet to the inside of the planking at the upper and lower points of the depth and at the three points obtained by dividing h into four equal parts (a and e being the breadths at the extreme points, and c at the middle point, of h).

(2) If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceed 1 per cent. of the length of the boat, the depth employed in calculating the area of the cross-section A or C shall be deemed to be the depth amidships plus 1 per cent. of the length of the boat.

(3) If the depth of the boat amidships exceeds 45 per cent. of the breadth, the depth employed in calculating the area of the midship cross-section *B* shall be deemed to be equal to 45 per cent. of the breadth, and the depth employed in calculating the areas of the quarter length sections *A* and *C* shall be obtained by increasing this last figure by an amount equal to 1 per cent. of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

(4) If the depth of the boat is greater than 4 feet the number of persons given by the application of these Rules shall be reduced in proportion to the ratio of 4 feet to the actual depth, until the boat has been tested afloat with that number of persons on board, all wearing lifejackets, and the test has proved satisfactory.

(5) The cubic capacity of a boat may be assumed to be the product of the length, the breadth and the depth multiplied by 0.6 in cases where it is clear that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner:—

Length: From the intersection of the outside of the planking with the stem to the corresponding point at the stern post or, in the case of a square sterned boat, to the after side of the transom.

Breadth: From the outside of the planking at the point where the breadth of the boat is greatest.

Depth: Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent. of the breadth.

In all cases the shipowner shall have the right to require that the cubic capacity of the boat shall be determined by exact measurement.

(6) If the oars are pulled in rowlocks, the bottom of the rowlocks shall be considered as the gunwale in measuring the depth of the boat.

(7) The cubic capacity of a motor-boat shall be obtained from the gross capacity by deducting a volume equal to that occupied by the wireless telegraphy installation, the searchlight, the motor and its accessories.

14. In the case of Pontoon Boats and of open boats of Class II the surface in square feet shall be determined by the following formula:—
Deck area and capacity of Pontoon Boats and of Open Boats of Class II.

$$\text{Area} = \frac{l}{12} (2a + 1.5b + 4c + 1.5d + 2e).$$

l denotes the length in feet from the intersection of the outside of the planking with the stem to the corresponding point at the stern post.

a, b, c, d, e denote the horizontal breadths in feet outside the planking at the points obtained by dividing *l* into four equal parts and sub-dividing the foremost and aftermost parts into two equal parts (*a* and *e* being the breadths at the extreme subdivisions, *c* at the middle point of the length, and *b* and *d* at the intermediate points).

15. No boat carried in compliance with these rules shall have a capacity of less than 125 cubic feet.
Size of boats.

16. In the tests prescribed by these rules for determining the number of persons which a boat can accommodate each person shall be assumed to be an adult person wearing a lifejacket.
Weight of persons.

In verifications of freeboard the pontoon boats shall be loaded with a weight of at least 135 lbs. for each adult person that the pontoon boat is authorised to carry.

17. (1) The davits shall be of approved form and shall be suitably placed to the satisfaction of the local Government. They shall be fitted on one or more of the decks in such positions that the boats can be efficiently lowered from them, and shall be so spaced and placed that the boats can be swung out with facility. Davits shall not be fitted in the bows of a ship, but they may be fitted in any other position in the ship, provided that the boats are not brought into dangerous proximity to a propeller at the time of launching.
Appliances for lowering boats.

(2) The davits, falls, blocks, and all other gear required for lowering the boats, shall be of sufficient strength to the satisfaction of the local Government. In the case of ships launched on or after the 1st January 1927, they shall be of such strength that the boats can be lowered safely with the full complement of persons and equipment, the ship being assumed to have a list of 15 degrees.

(3) In the case of ships launched on or after the 1st January 1927, the davits shall be fitted with gear of sufficient power to ensure that the boats can be turned out against the maximum list under which the lowering of the boats is possible, or the davits shall be of the quadrant or other such type as will ensure the above condition being fulfilled.

(4) The boat's falls shall be long enough to lower the boat into the water with safety when the vessel is light. Life-lines shall be fitted to the davit spans, and shall be long enough to reach the water when the vessel is light. Hooks shall not be attached to the lower tackle blocks.

(5) Means shall be provided for speedily, but not necessarily simultaneously or automatically, detaching the boats from the falls: the boats placed under davits shall be attached to the falls and kept ready for service; the points of attachment of the boats to the falls shall be sufficiently away from the ends of the boats to ensure their being easily swung clear of the davits; the boats' chocks shall be of such construction and arrangement as shall be satisfactory to the local Government.

(6) Where more boats than one are served by the same set of davits, arrangements shall be made to prevent the falls fouling when they are recovered and, where more than two boats are served by the same set of davits, there shall be provided an approved appliance for lowering the boats in turn and rapidly.

(7) The local Government may accept in lieu of davits or sets of davits any other appliance, appliances, or arrangements, which appear to them at least as effective as davits for placing the boats in the water.

18. Approved buoyant apparatus, whether buoyant deck seats, buoyant deck chairs or other buoyant apparatus, shall be deemed sufficient, so far as buoyancy is concerned, for a person or number of persons to be ascertained by dividing the number of pounds of iron which it is capable of supporting in fresh water by 32, and if the apparatus depends for its buoyancy on air shall not require to be inflated before use.

Buoyant Apparatus.

Such approved buoyant apparatus shall comply with the following conditions:—

- (1) It shall be of approved material and construction.
- (2) It shall be reversible.
- (3) It shall be of such size, strength and weight that it can be handled without mechanical appliances and, if necessary, can be thrown from the vessel's deck on which it is stowed.
- (4) The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the apparatus.
- (5) It shall be marked in such a way as plainly to indicate that it is buoyant and the number of persons for which it is approved.

19. (1) All boats attached to davits and all boats stowed under boats attached to davits shall be stowed in such a way that—

Stowage of Boats, Rafts, etc

- (a) They can be launched in the shortest possible time;
- (b) They will not impede in any way the prompt handling of any other of the lifeboats attached to davits or stowed under boats attached to davits or the buoyant apparatus carried under rule 4 or the marshalling of the persons on board at the launching stations, or their embarkation;
- (c) Even under conditions of list and trim unfavourable from the point of view of the handling of the boats as large a number of persons as possible can be embarked in them;
- (d) Except as hereinafter provided, they shall be so stowed as not to require lifting before being launched.

(2) With regard to the stowage of other additional lifeboats and buoyant apparatus the following provisions shall apply:—

- (a) They shall not impede in any way the prompt handling of the lifeboats attached to davits or the additional boats stowed under boats attached to davits or the buoyant apparatus or the marshalling of the persons on board at the launching stations or their embarkation;
- (b) The lifeboats may be stowed one above the other or they may, subject to such conditions as the local Government may impose, be fitted one within another, but where boats so fitted require lifting before being launched, they shall only be permitted if attached to davits operated by mechanical power appliances;
- (c) The lifeboats may be stowed in rows across a deck, bridge or poop;
- (d) As large a number of the boats as possible shall be capable of being launched on either side of the ship, either by means of approved appliances for transferring them from one side of the deck to the other, or by stowing in rows across the deck, or by some other equally satisfactory means;
- (e) Means shall be provided to the satisfaction of the local Government for lowering the lifeboats into the water in the shortest possible time.

(3) Where a boat is stowed underneath another boat there shall be provided approved removable supports or other approved appliances, so as to secure that the weight of a boat is not unduly supported by the boat underneath it.

(4) Boats may only be stowed on more than one deck on condition that proper measures are taken to prevent the boats from a lower deck being fouled by those from a deck above.

(5) All buoyant apparatus shall be so stowed as to be readily available in case of emergency.

Equipment for boats and buoyant apparatus.

20. (1) Every boat which is carried by any ship shall be equipped as follows :—

- (a) With the full single banked complement of oars and two spare oars, and a steering oar.
- (b) With two plugs for each plug hole, attached with lanyards or chains, and one set and a half of thole pins or crutches, attached to the boat by sound lanyards. Plugs shall not be required where proper automatic valves are fitted.
- (c) With a sea anchor, a bailer, a galvanised iron bucket, a rudder and a tiller, or yoke and yoke lines, a painter of sufficient length, and a boat-hook. The rudder, the bailer, and the bucket shall be attached to the boat by sufficiently long lanyards, and kept ready for use.
- (d) With a vessel capable of holding one quart for each person that the boat is deemed fit to carry. This vessel shall be kept filled with fresh water, and provided with a dipper with lanyard.
- (e) With two hatchets, one to be kept in each end of the boat, and to be attached to the boat by a lanyard.
- (f) With a line securely becketted round the outside of the boat.
- (g) With an efficient lantern trimmed, with oil in its receiver sufficient to burn eight hours ; or with some other lantern or light at least as effective approved by the local Government.

(2) In addition to the equipment prescribed in sub-rule (1), the boats shall be equipped as follows :—

- (a) With a mast or masts, and with at least one good sail and proper gear for each ; but this does not apply to an approved motor boat.
- (b) With an efficient compass.
- (c) With an air-tight case containing two pounds of biscuits for each person for whom the boat is approved.
- (d) With one gallon of vegetable or animal oil, and a vessel of approved pattern for distributing it on the water in rough weather. This vessel shall be capable of being attached to the sea anchor.
- (e) With one dozen self-igniting red lights in a water-tight tin, and a box of suitable matches in a water-tight tin.
- (f) With 1 lb. of condensed milk for each person the boat is certified to carry.

(3) All buoyant apparatus carried by a pilgrim ship shall be equipped as follows :—

- (a) With two paddles and one boathook or two paddles and boathooks combined attached to the buoyant apparatus by lanyards.
- (b) A painter of sufficient length.
- (c) A line securely becketted round the outside of the apparatus.
- (d) A self-igniting light and two signal flares of approved pattern, the self-igniting light to be attached to the buoyant apparatus by lanyards of suitable length ;

Provided that on buoyant apparatus designed to support less than twenty-five persons the paddles, boathook and flares need not be carried.

(4) All boats and buoyant apparatus shall be fully equipped before the ship leaves harbour and the equipment shall remain in the boat or buoyant apparatus throughout the voyage, while the ship is at sea or shall be stowed in some convenient place where it will be immediately available in case of emergency.

21. In all ships, approved rope ladders shall be carried in proportion to the number of davits fitted, namely, not less than one ladder for each two sets of davits, provided that no ship shall be required to carry more than 10 ladders. The ladders shall be of sufficient length to reach the waterline at the vessel's lightest sea-going draught and shall be carried in such a manner as to be always available for use in embarking the persons in the boats or rafts.

22. On all pilgrim ships in which the boat deck is more than 30 feet above the water provision shall be made for the illumination from the ship of the lifeboats when alongside and in process of or immediately after being launched.

23. An approved lifejacket shall mean a jacket of approved material and construction which is capable of floating in fresh water for 24 hours with 15 lbs. of iron suspended from it, or any other approved appliance of equal buoyancy and capable of being fitted on the body. It shall be reversible and suitable both for adults and children. Lifejackets the buoyancy of which depends on air compartments are prohibited.

24. (1) (a) An approved lifebuoy shall be of solid cork or other equivalent material. It shall be capable of floating in fresh water for at least 24 hours with 32 lbs. of iron suspended from it.

(b) Lifebuoys filled with rushes, cork shavings, granulated cork or any other loose granulated material, whose buoyancy depends upon air compartments requiring inflation, are prohibited.

(2) All lifebuoys shall be fitted with buckets securely seized, and at least one on each side of the ship shall be fitted with a life-line at least 15 fathoms in length.

25. All lifebuoys and life jackets shall be suitably placed to the satisfaction of the Government Surveyor and so as to be readily accessible to all persons on board; and their position shall be plainly indicated so that it may be known to those for whom they are intended.

Lifebuoys shall always be capable of being rapidly cast loose and shall not be rigidly secured in any way.

Life jackets may be stored either in battens over the passenger decks or in boxes under the charge of serangs as well as in the buoyant seats when these are used. The contents of the boxes shall be clearly painted on them and illustrated notices in the vernacular shall be posted up in different parts of the ship explaining to passengers where to find life jackets and how to use them. In addition, their use shall be demonstrated by the crew both during boat drills and periodically at other times.

26. (1) Any boat which forms part of the equipment of a ship that was launched before the 1st January 1927, and which has been inspected and approved by the local Government before that date may be accepted as equivalent to a lifeboat for a period of two years from that date, so long as it remains in good condition.

(2) Boats which were ordered before the date of the promulgation of these rules in order to complete the equipment of a ship, but which were not delivered in time to be inspected by the local Government before that date, may be accepted as equivalent to lifeboats for a period of two years from that date, so long as they remain in good condition:

Provided that such boats shall not be so accepted unless—

(a) they have been inspected where this has not already been done;

(b) they would have complied with the requirements of the rules in force prior to the promulgation of these rules.

27. (1) If it appears to the Government Surveyor on the application of the owner of any ship, that it is not practicable or reasonable to fit in that ship the number of sets of davits required by these rules, he may direct that one or more sets of davits may be dispensed with in that ship subject to such conditions, if any, as he may require:

Provided that the number of davits fitted shall not be less than the minimum number of open boats of the first class except in the following case:—

When a ship has been granted a passenger certificate previous to the introduction of these rules, the minimum number of sets of davits may, if the ship is between 245 feet and 460 feet in length, be one less, and if the ship is 460 feet or more in length, two less (one on each side of the ship) than the minimum number of open boats specified in column B of the Table in the Appendix to these rules;

Provided further that the owner of the ship in question shall be required to prove, by a test made in the presence of a Government Surveyor, that all the boats can be launched in a time to be fixed by him. The conditions of this test shall be as follows:—

(a) the ship shall be upright and in smooth water;

(b) the time shall be the time required from the beginning of the removal of the boat covers, or any other operation necessary to prepare the boats for lowering, until the last boat or pontoon raft is afloat;

(c) the number of men employed in the whole operation shall not exceed the total number of boat hands that will be carried on the vessel under normal service conditions;

(d) each boat, when being lowered, shall have on board at least two men, and its full equipment as required by these rules.

(2) If it appears to the local Government, on the application of the owner of any ship, that it is not practicable or reasonable in a particular case to require that pontoon lifeboats, made before the date of the promulgation of these rules and carried on ships of which the keel was laid on or before that date, shall have the minimum freeboard specified in these rules or the bottom and deck and made in two thicknesses with textile material between, the local Government may in their discretion dispense with full compliance with the rules in these respects until two years from that date, subject to such conditions, if any, as the local Government may impose.

(3) If a small ship is unable to carry more than one boat, the local Government may in their discretion exempt that ship from carrying more than one, but whenever one boat only is carried there shall be proper provision to enable it to be placed readily in the water on either side of the ship.

(4) If it appears to the Government Surveyor that it is impracticable to carry the number of boats required by these rules, the possible number (in the absence of large structural alterations) shall be found by measurement, after taking into consideration the practicability of launching these boats in rough weather.

28. Boat's crews shall be carried in all ships to which these rules apply on the following scale, namely:—

Manning of lifeboats, etc.

28 feet boats over and under this length	1 officer or petty officer and 4 men.
25 feet boats over and under 28 feet ...	1 officer or petty officer and 3 men.
20 feet boats over and under 25 feet ...	1 officer or petty officer and 2 men.
Under 20 feet, ...	2 men.

29. From a date to be notified by the Governor-General in Council, each lifeboat shall be in charge of a minimum number of lifeboatmen holding certificates issued under the authority of the local Government concerned. In order to obtain the certificates, the men must prove that they have been trained in all the operations connected with the launching of lifeboats and the use of oars: that they are acquainted with the practical handling of the boats themselves; and further that they are capable of understanding and answering the orders relative to lifeboat service.

30. A man capable of working the motor shall be assigned to each motor-boat. The allocation of certificated lifeboatmen to each boat and raft shall remain within the discretion of the master according to circumstances. The officer or petty officer placed in charge of each boat or set of rafts shall have a list of its crew and shall see that men placed under his orders are acquainted with their several duties and stations. The duty of seeing that the boats, pontoon-rafts and other life-saving appliances are at all times ready for use shall be assigned to one or more officers.

31. The muster list shall assign duties to the different members of the crew in connection with—

- (a) the launching of the boats attached to davits;
- (b) the preparation of the other boats;
- (c) the equipment of the boats generally;
- (d) the closing of the bulkhead doors, etc.;
- (e) the mustering of the passengers.

It shall also assign to the members of the Steward's Department their several duties in relation to the passengers at a time of emergency. These duties shall include—

- (a) warning the passengers;
- (b) seeing that they are dressed and have put on their life-jackets in a proper manner;
- (c) assembling the passengers;
- (d) keeping order in the passages and on the stairways and generally controlling the movements of the passengers.

32. The muster-list shall specify definite alarm signals for calling all the crew to their boat and fire stations and shall give full particulars of these signals. Before the vessel sails the master shall draw up and exhibit the muster-list and the proper authority shall be satisfied that the muster-list has been prepared for the ship and posted in several parts of the ship and in particular in the crew's quarters.

33. (1) In all ships to which these rules apply, a boat drill and a water-tight door drill shall be held as soon as possible after leaving the original port of departure and at convenient intervals of not less than a week during the voyage. Such drills shall be recorded in the official log.

(2) The Government Surveyor shall be satisfied, in each case before the ship leaves port, that a return has been devised and communicated to each officer of the ship for securing an efficient working of the boats. In all cases a police system shall be organised to the satisfaction of the Government Surveyor so as to secure obedience to orders and proper control and guidance of all on board in times of emergency.

(3) In carrying out the boat and water-tight door drills the crew will, when practicable, drill in their life-jackets and arrangements shall be made, when possible, for passengers to see the crew putting their life-jackets on. Entries in the official log shall state whether and when this has been done.

34. In all ships which are required under these rules to carry two or more boats, an emergency boat shall be carried slung out and ready for action every night.

35. Special boat decks shall be kept entirely clear of pilgrims, and in the case of bridge-decks and poop-decks, which are utilized for carrying pilgrims as well as boats and rafts, a space sufficient for the working of the boats and rafts shall be railed off.

36. (1) No boats, or buoyant-seats the whole of which cannot be efficiently put into the water in one hour, shall be deemed to form part of the equipment required in these respects on any vessel.

(2) The equipment of boats, and buoyant seats of any vessels shall not be passed by the Government Surveyor as satisfying these rules unless the whole of it can be efficiently placed in the water in one hour.

(2) Where the Income-tax Officer has reason to believe that any person, who is a shareholder in a company, is resident out of British India and that the total income of such person will in any year exceed the maximum amount which is not chargeable to super-tax under the law for the time being in force, he may, by order in writing, require the principal officer of the company to deduct at the time of payment of any dividend from the company to the shareholder in that year super-tax at such rate as the Income-tax Officer may determine as being the rate applicable in respect of the income of the shareholder in that year.

(3) If in any year the amount of any dividend or the aggregate amount of any dividends paid to any shareholder by a company (together with the amount of any income-tax payable by the company in respect thereof) exceeds the maximum amount of the total income of a person which is not chargeable to super-tax under the law for the time being in force, and the principal officer of the company has not reason to believe that the shareholder is resident in British India, and no order under sub-section (2) has been received in respect of such shareholder by the principal officer from the Income-tax Officer, the principal officer shall at the time of payment deduct super-tax on the amount of such excess at the rate which would be applicable under the law for the time being in force if the amount of such dividend or dividends (together with the amount of such income-tax as aforesaid) constituted the whole total income of the shareholder."

(3) Sub-section (3) of the same section shall be re-numbered as sub-section (4), and in that sub-section for the words "an assessee" the words "another person" and for the word "assessee", where it occurs for the second time, the word "person" shall be substituted.

Insertion of new section 66A in Act XI of 1922.

Reference to be heard by Benches of High Courts, and appeal to lie in certain cases to Privy Council.

8. After section 66 of the said Act the following section shall be inserted, namely :—

" 66A. (1) When any case has been referred to the High Court under section 66, it shall be heard by a Bench of not less than two Judges of the High Court and in respect of such case the provisions of section 98 of the Code of Civil Procedure, 1908, shall apply notwithstanding anything contained in the Letters Patent of any High Court established by Letters Patent or in any other law for the time being in force.

V of 1908.

(2) An appeal shall lie to His Majesty in Council from any judgment of the High Court delivered on a reference made under section 66 in any case in which the High Court certifies that the reference involves some substantial question of law.

(3) Nothing in this section shall be deemed—

(a) to bar the full and unqualified exercise of His Majesty's pleasure in receiving or rejecting appeals to His Majesty in Council, or otherwise howsoever, or

(b) to interfere with any rules made by the Judicial Committee of the Privy Council, and for the time being in force, for the presentation of appeals to His Majesty in Council, or their conduct before the said Judicial Committee."

STATEMENT OF OBJECTS AND REASONS.

The objects of the Bill are as follows :—

(1) It is intended to render section 57 (2) of the Indian Income-tax Act, 1922 (XI of 1922), effective for the objects that the Legislature originally intended to secure by its enactment. The sub-section in question runs as follows :—

" Where any assessee who is liable to pay super-tax on the amount of the dividends receivable by him from any company is, to the knowledge of the principal officer of the company, residing out of British India, the principal officer shall be liable to pay the super-tax due by such non-resident person in respect of the dividends received by him from the company, and shall have power to deduct the amount of such super-tax from the amount payable by the company to such assessee."

The intention of the sub-section is plain. It was framed to enable super-tax to be collected by deduction at source from the dividends payable to a non-resident shareholder. It has been found, however, that owing to technical defects in the drafting of the sub-section, the latter, as it stands, is of doubtful value. This is partly due to the use of the phrase " any assessee who is liable to pay super-tax ". The sub-section contemplates deduction from the dividends at the time of payment, but the " liability " to super-tax does not arise until the following year, since super-tax, like income-tax, is charged on the income of the previous year. Further, an " assessee " is defined in section 2 (2) as " a person by whom income-tax is payable ". " Income-tax " in this section includes super-tax [section 58 (1)], but it seems doubtful whether income-tax on super-tax can be said to be " payable " by a person who has not been formally assessed to income-tax or super-tax. Nor is it clear how super-tax can be " due " from a person who has not been assessed to super-tax. The Bill, therefore, provides for the amendment of the sub-section so as to make it plain that, without any formal assessment proceedings, the principal officer of a company is empowered to deduct super-tax from dividends declared to a non-resident when the amount of such dividends declared in a single fiscal year to the said non-resident (whether on one occasion or on more occasions than one) reaches the minimum amount liable to super-tax. The super-tax is in this case to be deducted at the rate applicable to the dividends on the assumption that the payee has no other income.

(2) The second object which the Bill is intended to secure is to obviate the anomalous results to which the existing sub-section (2) of section 57 gives rise, owing to the fact that the principal officer of a company can only deduct super-tax from a dividend paid to a non-resident, if the dividend itself exceeds the minimum liable to super-tax and even then can only deduct super-tax on the assumption that the dividend constitutes the whole of the shareholder's income. This may give a non-resident shareholder an unfair advantage

over a resident with precisely the same income. For example, if a non-resident shareholder draws a dividend of Rs. 40,000 from one company and a dividend of Rs. 60,000 from another company, super-tax will only be deducted on Rs. 10,000 by the principal officer of the second company, whereas, if the shareholder were a resident, he would have to pay super-tax on Rs. 50,000. Here clearly he has an unfair advantage over the resident shareholder. The existing sub-section may also operate unfairly as between two non-residents, for example, if one non-resident draws a dividend of Rs. 30,000 from one company and a dividend of Rs. 40,000 from another, no super-tax will be deducted, whereas if another non-resident shareholder draws a dividend of Rs. 70,000 from a single company, super-tax will be deducted on Rs. 20,000. In order, therefore, to render it possible, to some extent, for the income of non-residents derived from dividends in different companies and from other sources to be combined and taxed at the proper rate, so as to put them, as far as possible, on the same footing, in this respect, as residents, the Bill further provides that the principal officer of every company shall be required to notify to the Department annually all dividends paid to shareholders in excess of a sum to be prescribed by rule. This obligation is not restricted to dividends paid to non-residents, since such information will also be of great use to the Government for the purpose of preventing evasion of super-tax and income-tax by failure on the part of residents to include dividends in their returns. The amount of the individual dividend to which this provision should apply has been left to be fixed by rule in order that a convenient figure may be prescribed in the light of experience.

(3) In the case of the non-resident, the only method of realising the super-tax on dividends is ordinarily by deduction at source. The Bill, therefore, further provides that where the income-tax officer has reason to believe, as a result of the receipt of the information just mentioned from principal officers of companies, or otherwise, that the total income of a non-resident will reach the super-taxable limit, he may communicate to the principal officers of companies in which the non-resident holds shares, the estimated rate of super-tax appropriate to the total income of the non-resident, whereupon the principal officers in question will be required to deduct super-tax from any dividends paid to the non-resident at such rate. Such deductions will be subject to subsequent adjustment as stated below.

(4) It is further proposed to amend section 51 of the Act so as to make it an offence for the principal officer of a company to fail to furnish the return of shareholders to whom he has paid dividends in excess of the prescribed limits and to amend section 52; similarly, to make it an offence for the principal officer of the company to make a false statement in such a return.

(5) In sections 57 (1) and 57 (3) [to be renumbered as sub-section (4)], which relate, respectively, to the liability of resident members of a registered firm to pay the super-tax chargeable on the share of the profits of the firm due to a non-resident member, and to payment of super-tax on account of non-residents under the provisions of section 57, it is proposed to substitute the word "person" for the word "assessee" owing to the difficulties created by the use of the latter word which have been mentioned above.

(6) Finally, by clause 6, it is proposed to make the provisions of section 18, sub-sections (4) to (9) apply to super-tax recovered under sub-section (2) or sub-section (3) of section 57, so that—

- (a) credit will be allowed for tax deducted under section 57 when any assessment is made on the shareholder's income in the following year (consequently any excess collection will be adjusted as already mentioned);
- (b) the person deducting super-tax shall be bound to pay it within the prescribed time into the Government Treasury;
- (c) a person who makes a default in the deduction of super-tax under section 57 shall be liable for the tax;
- (d) the power to recover by deduction under section 57 shall not bar other methods of recovery; and
- (e) every person deducting super-tax under section 57 shall be bound to furnish to the shareholder on whose behalf the tax has been deducted a certificate giving the particulars of such deduction.

(7) The Bill also contains provisions designed to overcome the difficulty that has been experienced, both by Government and by the public, owing to the fact that, short of legislation, there is no means of securing uniformity in the administration of the law in different provinces, where different High Courts have expressed different opinions under section 66 in regard to the interpretation of questions of law referred to them. The Bill, therefore, provides that references under section 66 of the Indian Income-tax Act, 1922, should be heard by a Bench of not less than two Judges; that where such Judges disagree the case should be referred to a third Judge whose opinion should prevail, and that from a decision of a High Court under section 66 an appeal should lie to the Privy Council.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 1st February, 1926 :—

No. 8 OF 1926.

A Bill further to amend the Code of Criminal Procedure, 1898, for a certain purpose.

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898, for the purpose hereinafter appearing ; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Code of Criminal Procedure (Second Amendment) Act, 1926.

Amendment of section 123, Act V of 1898

2. In sub-section (6) of section 123 of the Code of Criminal Procedure, 1898, the words and figures " or section 109 " shall be omitted, and before the word and figures " section 110 " the words and figures " section 109 or " shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

Prior to the amendment of section 123 of the Code of Criminal Procedure, 1898, by section 21 (2) of Act XVIII of 1923, Courts had discretion to award either simple or rigorous imprisonment in the case of proceedings under section 109. The effect of the amendment was to take away the discretion, and this Bill restores it. Several Local Governments have represented that the change has worked injuriously, as most of the persons against whom proceedings are taken under section 109 are men for whom sentences of simple imprisonment are quite unsuitable. The Jails authorities also have in their administrative reports brought this point prominently to notice. This provision was inserted in the Code of Criminal Procedure (Amendment) Bill which was introduced on the 27th August 1925, but on the 14th September when the Bill was taken into consideration, the provision in question was omitted by the Assembly. The Government of India attach very great administrative importance to the provision, and they have some reason for believing that it was omitted from the Bill in September last largely owing to a misunderstanding as to the class of persons usually proceeded against under section 109. They have accordingly decided to place the proposal once more before the Indian Legislature as a single issue and so to enable its merits to be fully discussed.

Second Forecast of the Spring Oilseed Crops of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under linseed in Bengal has represented some 3·8 per cent., and that under rape and mustard 13·7 per cent. of the total area under these crops in British India.)

Character of the season.—As reported in the first forecast the weather was generally favourable at the outset. Uneven distribution of rainfall during the period of growth affected the crops. Damage by insect pests is reported from some important districts of North and East Bengal. On the whole, a fair crop is anticipated.

Area sown.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 898,100 acres this year as against 881,900 and 884,600 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 76 per cent. of the normal as against 73 and 75 per cent., respectively, in the corresponding and final forecasts of last year.

CALCUTTA, THE 5TH MARCH 1926.

RESOLUTION—No. 21.

READ—

The Annual Irrigation Revenue Report for the year 1924-25.

THE year 1924-25 was marked by important changes in the constitution of the Irrigation Department. The Rajshahi subdivision, with headquarters at Rampur-Boalia, was opened for the purpose of taking over the irrigation works formerly in the Rajshahi Division of the Public Works Department and for supervising the work of training of the Ganges and keeping under observation the area which suffered during the floods of 1918 and 1922 in Northern Bengal. The Jangipur subdivision was closed, and the work south of the river was transferred to the Berhampore subdivision. For the efficient supervision of the investigations undertaken in the districts of Bankura, Birbhum, Burdwan and Murshidabad in connection with certain irrigation schemes, two subdivisions were formed, one in Bankura under the Cossye Division and the other in Birbhum (Suri) under the Damodar Division.

3. The capital expenditure of Rs. 1,16,982 during the year on the **Grand Trunk Canal** was principally incurred to meet payments on account of enhanced awards given by the special Land Acquisition Judge in certain reference cases in connection with the acquisition of land at the Baranagar end of the canal.

4. No capital expenditure was incurred during the year on the **Midnapore Canal**, which consists of two weirs at Midnapore and Panskura, 69.75 miles of main and branch canals used both for irrigation and navigation, and 284.97 miles of distributaries. The area irrigated during the year was 76,235 acres as against 72,412 acres in 1923-24 and an average of 79,121 acres for the triennium ending March 1924. The receipts and working expenses (direct and indirect) were Rs. 2,68,219 and Rs. 1,83,835, respectively, the result being a net revenue of Rs. 84,384 against a net revenue of Rs. 543 in the preceding year.

5. No capital expenditure was incurred on the **Hijli Tidal Canal**, which, with the Terapakhia pass khal, Palaboni khal and the khal leading to the Gewankhali Lock entrance, constitutes a navigation canal of 49½ miles in length. The receipts and working expenses of the canal were Rs. 1,30,365 and Rs. 17,703, the result being a net revenue of Rs. 1,12,662 against Rs. 60,703 in the previous year. The increase is due to the enhancement of the rates of tolls.

6. **The Calcutta and Eastern Canals** form a series of natural and artificial navigation channels extending for 834 miles for the purpose of maintaining communication between Calcutta and Eastern Bengal. With effect from the year 1924-25, the accounts of the Sunderbans Steamer Route, which were formerly included in those of the Calcutta and Eastern Canals, have been shown as a separate item in the accounts. The capital expenditure on the Calcutta and Eastern Canals was Rs. (-) 39,291. This is inclusive of a credit of Rs. 39,485 on account of the hire of the dredgers "Foyers" and "Alexandra" and other receipts. The receipts and working expenses amounted to Rs. 5,07,958 and Rs. 8,27,344, respectively, the result being a loss of Rs. 3,19,386, which is principally due to the reconstruction of bridges over the canals and the extensive repairs to the dredgers "Foyers" and "Alexandra", tugs and coal barges.

The Sunderbans Steamer Route has been treated as a separate project from the Calcutta and Eastern Canals as has been noted above. The receipts and working expenses of this route were Rs. 55,300 and Rs. 45,475 respectively, the result being a net revenue of Rs. 9,825.

On the Madaripur Bheel Route connecting the Madhumati and Kumar rivers in the Faridpur district, a capital expenditure of Rs. 4,41,484 (direct and indirect) was incurred mainly on dredging the Lower Kumar river from Fakirhat to Charnmaguria, a length of 13 miles. The receipts, which are derived for the most part from navigation tolls, totalled Rs. 3,44,752 against Rs. 2,67,656 in the previous year. The cost of maintenance of this route was Rs. 2,08,061 against Rs. 47,131 and the net revenue Rs. 1,36,691 against Rs. 2,20,525. The increase in receipts was due to increased traffic consequent on the dredging of the river and to some extent to higher rates of navigation tolls.

8. **The Orissa Coast Canal** in the Midnapore district is a canal for navigation only and lies partly in the Bengal Presidency and partly in the province of Bihar and Orissa. The receipts and working expenses for the portion within Bengal were, respectively, Rs. 37,087 and Rs. 15,123 against Rs. 22,602 and Rs. 19,814 in the previous year. The increase in receipts is principally due to higher tollage rates.

9 **The Nadia Rivers** having been thrown open to free navigation from 1st September 1923, there were no navigation receipts during the year. The maintenance charges amounted to Rs. 26,752 only against Rs. 60,614 of the previous year.

10. **The Gaighata and Baxi khal** is a short channel connecting the rivers Damodar and Rupnarayan in the Howrah district. This khal has been leased for a period of six years from the 15th June 1921 at a rental of Rs. 2,000 per year, on condition that the lessees do all silt-clearance at their own cost and maintain the khal to a stated bed-level, subject to the control of the Irrigation Department. The receipts during the year amounted to Rs. 1,500.

11. **The Eden Canal** in the district of Burdwan was originally constructed to supply water for drinking purposes; it is now used for irrigation also. The supply of water in the canal is uncertain owing to the absence of a weir in the river Damodar. This state of things will improve when the Damodar Canal project is carried out. The area irrigated from the canal was 21,010 acres against 20,321 acres in the preceding year. The receipts and working expenses were Rs. 35,226 and Rs. 34,112, respectively, against Rs. 28,467 and Rs. 46,332 in the preceding year.

12. **Bidyadhari dredging.**—The Bidyadhari river is the principal outlet for the sewage and storm water of Calcutta; the river having deteriorated rapidly the dredger "Foyers" was employed in the year 1922-23 to clear it, the Calcutta Corporation contributing to the cost. The work was completed during the year at a total cost of Rs. 10,15,058. The Bidyadhari spill operations were also completed during the year at a cost of Rs. 6,61,936 against sanctioned estimate of Rs. 8,05,516, the expenditure during the year being Rs. 5,991.

13. **Training works.**—Training works in connection with the conservancy of the Ganges from Raimahal to Goalundo continued to be carried out departmentally with the help of an experienced officer of the Steamer Companies. Training and bandalling works were also carried out in the Bhagirathi river. Bandalling works were done as usual in the Dhaleswari and Buriganga rivers and a sum of Rs. 17,302 was spent on the work.

14. **Drainage works.**—In the year under review the construction of the Amirabad drainage scheme in the district of Midnapore was suspended, and preliminary investigations for the drainage of the Gobra nala and Kalantar area in the district of Murshidabad were completed. The Arapanch drainage scheme in the 24-Parganas district was completed.

Projects for rearing the Bhairab and other rivers in the Nadia and Jessore districts and for the drainage of the Gangakhali-Seadighi and Dhunia-Barunda basins in the Midnapore district were under preparation.

15. Irrigation in Western Bengal.—The revised project for the **Damodar Canal** in the Burdwan district was under re-examination during the year; when carried out it will irrigate an area of 1,96,000 acres of land.

Surveys and investigations for small schemes in the districts of Bankura, Birbhum and Midnapore were in progress. Some of these schemes are to be carried out through the agency of Co-operative Societies, while others will be undertaken under the Agricultural and Sanitary Improvement Act, VI of 1920. The object of these works is to extend irrigation from the streams in Western Bengal, which is more liable to famine than other parts of the province.

16. Hydro-electric survey.—The report of the committee appointed to consider the measures to be taken to conduct and control the work of the hydro-electric survey in Bengal was published.

17. General.—The Irrigation Department in Bengal have to deal more with the improvement of navigation and sanitary conditions and control of flood water than with irrigation proper. For maintaining and developing the waterways suction dredgers are in use, the largest of which is intended for use in the proposed **Grand Trunk Canal**, which was held in abeyance during the year owing to financial stringency. The deterioration of the Sunderbans Steamer Route continues, and it is apparent that the construction of the Grand Trunk Canal is the only solution of the growing difficulty caused by the deterioration of this route, and the execution of the project is absolutely necessary to ensure a satisfactory navigable connection between Calcutta and Eastern Bengal and Assam for inland steam vessels.

ORDER—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and a copy thereof and its accompaniments be submitted to the Government of India in the Department of Industries and Labour (Public Works Branch) and circulated to all departments and officers of this Government as usual.

By order of the Governor in Council,

. C. ADDAMS WILLIAMS.

Secretary to the Government of Bengal.

No. 51.—*The 6th March 1926*.—The following draft of rules and schedule of rates of tolls, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864) the Governor in Council intends to make and fix, for the Damodar (Chandradhara) and the Katcha and Baleswar rivers in the Perojpur subdivision of the Bakarganj district, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 22nd April 1926, and any objections or suggestions received before that date will be considered —

Draft rules and schedule of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj, on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as hereinafter—

Class I.—To include all vessels of the types of country boats, including salters and hoppers (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the centre line, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder less than a quarter of a foot.

C. The number of maunds on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. *Salters.* The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting remainder of less than 500 maunds. In the case of steamers and motor boats, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

- | | | |
|---|--------|-----------------------|
| (1) On all vessels empty or laden, per hundred maunds | | Eight annas. |
| (2) On all vessels empty or laden, for 12½ maunds or less | | One anna. |
| (3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth | | Four annas each raft. |

Tolls will be levied at Hulerhat and Perojipore.

13. For boats frequently using the canal such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

RESOLUTION ON THE REPORTS FROM THE COMMISSIONERS OF DIVISIONS ON THE WORKING OF MUNICIPALITIES IN THE BENGAL PRESIDENCY (EXCEPT CALCUTTA) DURING THE YEAR 1924-25.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

CALCUTTA, THE 5TH FEBRUARY, 1926

RESOLUTION No. 375M.

READ—

Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during the year 1924-25.

1. **Number of Municipalities.**—suburban municipalities of Cossipu
Owing to the amalgamation of three Chitpore, Maniktola and Garden Reach

with the Corporation of Calcutta, the number of municipalities decreased to 115.

The figures for 1923-24 referred to in this resolution exclude those for the three suburban municipalities mentioned above.

2. **Elections.**—General elections were held in 61 municipalities and were hotly contested in the majority of cases. In Burdwan not only did the educated people take an active part in the contest but the carters of the town set up a candidate from their own community who was returned with the highest number of votes. There was, however, no poll in any of the wards of the South Suburban and Kumarkhali municipalities.

The percentage of attendance of voters in the elections was high in many cases: in the small town of Sherpur, in the district of Mymensingh about 80 per cent. of voters recorded their votes. The Commissioner of the Division, however, observes that this high percentage of voters is a proof rather of the keen rivalry existing between the two factions led by the local zemindars, which divide the town, than of any concern for municipal interests. The number of civil suits and objections filed by the aggrieved parties for setting aside the elections was higher than in the previous years. The most noticeable instance was that of the Dinajpur Municipality, where several suits were instituted of which some are still pending. In Basirhat, though dates for the general election were fixed twice, it could not be held owing to injunctions issued by the Civil Court. The election of the Dacca Municipality, which was held in March 1925, was followed by litigation and the issue of a temporary injunction. The new Board could not be formed until the 21st July 1925, after the order of the lower Court was reversed on appeal by the District Judge. The main suits are still pending. The issue of injunctions seriously hampers municipal administration and a more satisfactory and expeditious means of disposing of election disputes, such as the Bengal Municipal Bill provided, is much needed. The election of the Commissioners of the Chittagong Municipality, which was due in March 1925, could not be held owing to the declaration by the Court that the Assam Bengal Railway Co., Ltd., had been illegally excluded from the list of voters and that there should be another publication of the voter's list.

The elective system was sanctioned for the Gaibandha Municipality with effect from the next reconstitution.

3. **Meetings.**—Out of 2,517 meetings held during the year 338 either proved abortive or were adjourned. The failure was most marked in Murshidabad where eight out of 21 meetings were abortive and six adjourned. At Kotechandpur more than half, and at Jainagar nearly half, the number of meetings held was unsuccessful. Kalna held the largest number of meetings, *viz.*, 52, but more than one-fourth of them either proved abortive or were adjourned. Garulia and Cox's Bazar are the only municipalities where the Commissioners failed to meet once a month. The average percentage of attendance was the highest at Taki (99·9) and the lowest at Murshidabad (32·3). The percentage was over 75 in 4 municipalities while it exceeded 50 in 88 others. The Commissioner of the Burdwan Division, however, observes that "the percentage of attendance is no index of the real amount of work done. Burdwan did better work than its percentage would indicate. High percentage of attendance often means nothing more than existence of bitter faction."

4. **Number of Rate-payers.**—The total number of rate-payers rose from 313,177 to 317,895. The percentage of rate-payers to total population was 15·7 against 15·5 of the preceding year. The ratio varied from 40·1 in Sherpur (Bogra) to 3·1 in Titagarh—a mill town with a large coolie population. Other towns in which rates are paid by less than one-tenth of the people are the hill stations of Darjeeling and Kurseong and the several riparian municipalities including Narayanganj. The low percentage at the latter place is due, as before, to the floating population of factory operatives living with their employers. There was an appreciable increase in the number of rate-payers in Bogra which is probably due to the general revision of assessment.

5. **Assessment and Taxation.**—The average incidence of taxation per head of population rose from Rs. 2-12-5 to Rs. 3-0-4. In this case also there are large variations, the incidence being above Rs. 5 in four municipalities, *viz.*, Howrah (Rs. 9-7-8), Darjeeling (Rs. 10-0-10), Kurseong (Rs. 8-6-10) and Chittagong (Rs. 5-9-8) while it is as low

as 6 annas in Debbhatta, under 8 annas in Baduria and Bajitpur and under one rupee in 19 municipalities.

A general or partial revision of assessment was made in 49 municipalities, the net result being an increase of about Rs. 1½ lakhs in the municipal demand of the Presidency as a whole. The largest increase was obtained in the municipality of Howrah (Rs. 58,974). Then come South Dum-Dum with an increase of Rs. 19,650, Rishra-Konnagar Rs. 13,939 and Kamarhati Rs. 10,038. These figures however represent the gross increases which are likely to be reduced on the hearing of appeals. The rate of water-tax in Noakhali was raised to 5, 4 and 3 per cent. on the annual value of holdings within the radii of 440 feet, 880 feet and 1,320 feet, respectively, from any reservoir, and this resulted in an increase of Rs. 1,571 in the annual demand.

6. **Collections.**—The total collections for the Presidency as a whole rose from Rs. 54 lakhs to Rs. 59 lakhs, the percentage of collections on the current demand being 95.3. The collections were very satisfactory in 13 municipalities where the realization was either equal to or in excess of the current demand and in 14 others they were over 99 per cent. On the other hand, the ratio was under 80 per cent.—a deplorably low figure—in 8 towns, falling as low as 58.4 per cent. in South Dum-Dum and 46.6 per cent. in Sherpur (Mymensingh). The low percentage in South Dum-Dum is reported to be due mainly to non-payment of taxes by the Eastern Bengal Railway authorities. In Sherpur the collection was stopped owing to the declaration by the Civil Court that the assessment of 1922 was illegal and *ultra vires*. This was followed by an order of Government under section 111A of the Bengal Municipal Act requiring that the assessment should be revised by a paid Assessor. Pending such revision no collection could be made. As usual, the Garulia and Nalchiti municipalities collected cent per cent. of their demand without remission. Next comes the Titagarh Municipality with an improved collection of 99.6 per cent. of the demand, granting a remission of only 3 per cent. and leaving no outstanding balance. The small municipalities of Baraipur and Meherpur also showed good collections.

The amount of remissions for the province as a whole (Rs. 2,86,844) was practically the same as in the previous year and represented 4.6 per cent. of the current demand. The small municipalities of Muktagacha and Baraset remitted more than a quarter of their current demand while four others, viz., Jamalpur, Jainagar, Tollygunge and Satkhira remitted more than 10 per cent. No explanation has been given for the high percentage of remissions in these municipalities. Large remissions indicate either careless assessment, or incapacity on the part of the collection staff; it is an unsatisfactory method of disposing of large outstanding balances.

In the Presidency as a whole the balances outstanding at the close of the year amounted to Rs. 13 lakhs. The Governor in Council regrets to observe that the accumulation of such heavy arrears reflects credit neither upon the Municipal Commissioners nor upon their executive. Howrah shows the largest balance outstanding, viz., Rs. 4,23,812, for which no explanation has been given. Next comes Dacca with an outstanding balance of Rs. 2,48,584, which however was due to a well-organised agitation against the payment of taxes. A civil suit instituted to challenge the validity of the Dacca re-assessment has been decided in favour of the municipality, but in the meantime two years' arrears of taxes have accrued and it will be very difficult for the poorer rate-payers to pay up such large arrears. The Bengal Municipal Act unfortunately—unlike the Calcutta Municipal Act—does not permit the Commissioners to realize rates on the basis of the old assessment, when the re-assessment is contested. The new Municipal Bill provided for this very necessary amendment. Other municipalities which had unduly large balances outstanding were Mymensingh, Chittagong, Tollygunge, South Dum-Dum, Hooghly-Chinsurah, Bally and Barisal. The balance in Chittagong (Rs. 40,651) consists of Rs. 9,092 due on Government buildings (the correctness of the assessment being disputed) and Rs. 31,559 due by private individuals—the worst defaulters being some of the Municipal Commissioners themselves. It is reported that Rs. 10,000 have since been realized leaving a balance of Rs. 21,559. In the case of Tollyganj the heavy outstanding balance representing 42.7 per cent. of the current demand is reported to be due to non-payment of taxes by some

persons against whom civil suits have been filed. The reason for the heavy balance in South Dum-Dum has already been stated. The Chairman of the Bally Municipality reports that suits have been instituted for the realization of balances. In other cases no satisfactory explanations have been furnished but generally they are due to laxity in collections and the neglect of the municipal executive to enforce punctual payments, quarter by quarter, by means of a regular and impartial issue of warrants.

The Governor in Council would invite the attention of all Municipal Commissioners to the following remarks made by Mr. Twynam, Magistrate of Mymensingh :—

In practice, many municipalities rely on persuasion at the end of the financial year for the collection of taxes. Although frequently successful this method has one great defect. Under Account Rule 87 the notice of demand must be served not later than the 15th day of the second month of the quarter. After service of the notice the Commissioners may within 3 months issue a distress warrant. It, therefore, happens that most distress warrants are time-barred by the end of the year.

7. Income and Expenditure.—The total receipts including opening balances amounted to Rs. 1,06,03,381 against Rs. 99,91,595 in the year 1923-24. The total disbursements were Rs. 86,13,713 as against Rs. 83,74,917.

8. Closing Balance.—The total balance at the close of the year amounted to nearly Rs. 20 lakhs as against Rs. 16 lakhs in the preceding year. The largest balances were held by Dacca (Rs. 4,68,489), Howrah (Rs. 3,83,849) and Darjeeling (Rs. 1,59,600).

No explanations have been furnished for the large balances in Dacca and Howrah; in the latter case it includes probably the unspent balance of the loan of Rs. 2,50,000 taken in 1923-24 for the improvement of water-supply and in the former case, the grant made by Government towards the sewerage scheme. Of the balance in Darjeeling Rs. 38,000 represents the amount set apart for major replacements of alternators and turbines, etc. Comparatively large balances were held by the municipalities of Bhatpara, Naihati and Budge-Budge in order to carry out sanitary schemes and the general improvement of the town. On the other hand, a number of

municipalities failed to keep adequate working balances and in several cases they were insufficient to meet outstanding liabilities. In the case of Serampore, Raniganj, Azimganj, Mymensingh, Faridpur, Barisal and Serajganj the outstanding liabilities largely exceeded the closing balances. The worst offenders in this respect were Baraset and Pirojpur, which had outstanding liabilities of Rs. 2,299 and Rs. 2,173, respectively, against actual balances of Rs. 322 and Rs. 335 only, and Hooghly-Chinsurah which closed the year with a sum of Rs. 10,681 in hand but with liabilities exceeding Rs. 32,000.

9. Education.—The amount spent on education including the Government grant of Rs. 80,480 was Rs. 2,94,321 as against Rs. 2,56,314 in the preceding year.

The expenditure on primary education also showed a corresponding increase of about Rs. 35,000 which is contributed by all the Divisions. Seventeen municipalities however, or roughly one in seven, failed to spend 3·2 per cent. of their ordinary income—the percentage which is taken to represent the amount required for the education of half the number of boys of primary school-going age. On the other hand, the ratio was over 5 per cent. in 49 municipalities, and over 10 per cent. in 14. The high percentage (14·3) in the case of Budge-Budge is due to an expenditure of Rs. 6,619 on the construction and equipment of a school building which forms part of Mr. Biss' primary education scheme.

Dacca and Midnapore have established three and five free primary schools, respectively, on the Biss model. Burdwan is also maintaining one school under this scheme which has also been accepted by the municipalities of Garulia and Kishoreganj. In the latter town, an education cess has been introduced and the school houses are being constructed. The Commissioners of the Chittagong Municipality have improved some of their existing primary schools, added to the number (35) a new upper primary school with 5 teachers on the lines of Mr. Biss' scheme. They have also drawn up a scheme of free primary education within the municipal limits. An education cess at the rate of 1·6 per cent. on the municipal valuation is levied at Rangpur and sanction to the levy of such cess at the rate of 1 per cent. has been applied for by the Commissioners

of the Berhampore Municipality. The Burdwan Municipality has made a free gift of some land for starting a middle school for girls for which Government will bear the recurring charges and the initial expenditure on school buildings.

10. **Water-Supply.**—As usual, Tollygunge and South Suburban were supplied with filtered water from the Calcutta mains while seven other municipalities got their supply from the local mill filters. Excluding these, there are at present 27 municipalities which have their own water-works. The number of persons supplied with filtered water was about nine lakhs and the total quantity supplied was about 10 million gallons per day. The water-works at Raniganj could not be completed owing to a sudden flood in the river which not only put a stop to the work but did much damage to the new well in the river bed. The operations in connection with the Comilla water-works, to which Government made a loan of Rs. 45,000, were almost completed during the year, but owing to shortage in gravity pipes water could not be supplied until September 1925. A water-supply scheme for the town of Suri was sanctioned at an estimated cost of Rs. 1,60,700 and boring operations were carried on under the supervision of the Public Health Department. An extension of the Bankura water-supply scheme was sanctioned by Government, but the work was not taken in hand as no decision was reached as there was a difference of opinion between the Commissioners and the Chief Engineer regarding the respective merits of cast-iron and steel pipes. A revised scheme for the improvement of water-supply to Kalna at an estimated cost of Rs. 130,000 was drawn up by the Chief Engineer, Public Health Department. The water-works scheme for the northern section of Chandpur was sanctioned at an estimated cost of Rs. 92,000 towards which Government promised a grant of Rs. 20,000 and a loan of Rs. 32,000. The filter of the Patuakhali water-works was repaired and a new engine supplied to the Patuakhali water-works at a cost of Rs. 2,500. The improvement of the Chittagong water-works, which was under the consideration of the municipal Commissioners, was considered unnecessary for the present, as the cleansing of tube wells and other machinery has resulted in an increase of the output. There was some extension of

water pipes in Dacca and the total number of house connections rose from 1,611 to 1,655. The average daily consumption of water in Mymensingh has risen from 2,35,000 gallons in 1921 to 3½ lakh gallons. This excessive consumption coupled with absence of control and bad finance has landed the municipality in a serious *impasse*. The Governor in Council therefore accepts the suggestion of the District Magistrate that the Municipal Commissioners should thoroughly investigate the causes of the present excessive consumption and improve their financial position before embarking on any new scheme for the extension of water-works. The water-works of the Berhampore Municipality were in charge of the Public Health Department and Government advanced a loan of Rs. 10,000 for its improvement which could not be completed within the year.

The supply of water by tube wells having proved successful in certain soils and at the same time cheaper, several municipalities—especially in the Presidency Division—decided upon obtaining water through such wells. Baruni-
pur, which already had 24 tube wells, sunk 4 more during the year. Halisahar sunk four such wells, South Dum-Dum three and Kanchrapara one. The latter municipality has also excavated two pucca wells and Budge-Budge a reserved tank. Tube wells were also provided by the municipalities of Tollygunge, South Suburban and Basirhat. In Rajshahi a pump and an engine were affixed to the tube well which was sunk at the cost of Government. English Bazar and Bogra received a grant of Rs. 11,000 and Rs. 19,000, respectively, from Government towards the cost of boring experimental tube wells.

11. **Conservancy and Drainage.**—Conservancy charges were about Rs. 3½ lakhs in excess of the receipts from latrine fees which were levied in all but 15 municipalities.

The revised estimate of the Bhatpara sewerage scheme has recently been submitted to Government. The work of the Titagarh sewerage scheme is being carried on under the direct supervision of the Public Health Department. It is, however, reported that the progress is very slow owing to delay over the land acquisition proceedings. The principal dumping depôts and public latrines necessary for the island area of the

Dacca sewerage (initial portion) were constructed and brought into operation during the year. It is reported that the wooden roofs of the septic tanks of the Kurseong sewerage have been replaced by ferro-concrete roofing and that the alteration to the detritus chamber has greatly improved its efficiency, the breeding of mosquitoes in the tanks having been entirely stopped. The supplementary drainage scheme of the English Bazar Municipality, which is estimated to cost Rs. 18,000, received the approval of the Public Health Department. In Budge-Budge the Chitragunge sluice project was completed and in Kanchrapara a big drain from Dangapara to Bagerkhal was constructed. A portion of the Grand Trunk Road side drain in the Rishra-Konnagar *bustre* was constructed and regraded.

Minor drainage works were also carried out in several other towns. These are generally confined to construction of, and repairs to, drains, culverts, etc.

12. Public Health.—Almost all the municipalities adopted measures for the improvement of sanitation by filling up, clearing or disinfecting insanitary tanks, ditches and *dobas* and by removing jungles and obnoxious vegetation. More than half of the area of the Champdany Municipality was cleared of jungle by the Angus Company and a great improvement was made in Ward III of the Bansberia Municipality by Messrs. McNeil & Co. by clearing jungle from a large area acquired by them. In Berhampore roadside jungle as well as jungle growing by the side of the embankment of the river Bhagirathi was cleared and in Kanchrapara some borrow-pits were filled up with sweepings from the railway workshop. In many municipalities notices under the Bengal Municipal Act were issued on private persons to remove jungle and tank vegetation, to cleanse tanks and fill up ditches. In the majority of cases such notices were obeyed without prosecution. Where they were disregarded the municipality had either to prosecute or to do the work itself recovering the cost thereafter from the owner. In Jessore alone more than 700 notices were served upon the owners of houses with jungle within their compounds and the notices were generally complied with. The power of a municipal authority to requisition improvements of this kind is of great importance and the measure of its use—in

so far as the Municipal Commissioners are not obstructive—is a good index of the activity of the sanitary staff. The Governor in Council is glad to find the Jessore Municipality making a wide use of these powers.

Precautionary measures were taken by a large number of municipalities to check the spread of epidemics. Medicines and disinfectants were freely distributed and special doctors were appointed where necessary. Lectures on epidemics with magic lantern demonstrations were delivered at several towns for the purpose of educating the people in sanitation and public health. Leaflets for the prevention of small-pox were distributed and placards and posters were hung up in conspicuous places.

Free vaccination was provided by many municipalities and effective measures were taken to vaccinate and revaccinate children. Additional vaccinators were employed by several municipalities for this purpose. Some students of the Burdwan Medical School acted as honorary vaccinators. A severe epidemic of small-pox broke out at Bhatpara but the spread of the disease was checked by house-to-house vaccination, disinfection of the affected houses and burning of sulphur at convenient centres. Cholera broke out in several municipalities in the district of the 24 Parganas and elsewhere: the usual preventive measures (*e.g.*, chlorination of tanks and pools, disinfection of drains and infected rooms) were adopted with good results.

Malaria and kala-azar were prevalent in some municipalities. Arrangements were made by the Berhampore Municipality for the treatment of kala-azar patients in the local charitable hospital. Quinine and cinchona febrifuge were freely distributed by many municipalities.

It is reported that the local anti-malarial and kala-azar societies, where they exist, did useful work in co-operation with municipalities in combating these diseases. Kala-azar patients were treated free of charge by the Nimta Society in North Dum-Dum and the Bengal Young Men's Association in Baraset. In Jamalpur a committee was formed for the treatment of kala-azar patients with the Subdivisional Officer as President and the Municipal Chairman as Secretary. Arrangements were made for

a general survey of malaria in the town of Dinajpur, where one centre has already been opened in Ward V for the free treatment of kala-azar patients.

In Berhampore a baby show was held and maternity lectures were delivered by the local doctors, the publicity officer and others.

By-laws were framed by certain municipalities for the eradication of water-hyacinth and in Narayanganj and elsewhere effective measures were taken for clearing this pest from tanks.

In several municipalities food-stuffs offered for sale to the public were examined and unwholesome food-stuffs were in some cases either destroyed or removed from the bazar. In Dacca 240 samples of different kinds of foodstuffs were sent to the Public Health Laboratory for analysis of which 111 were found to be adulterated. Prosecutions were instituted in all these cases under the Bengal Food Adulteration Act and convictions were obtained in 87 cases. The efforts of the sanitary staff in this important but neglected branch of administration, deserve praise. Where the Health Officer as in Dacca is zealous and energetic, he will find ample work to do and in justifying his appointment he will be demonstrating to the Municipal Commissioners the range and scope of sanitary administration. A number of prosecutions under sections 6 and 10 of the Bengal Food Adulteration Act were also instituted in Bhatpara, Barnagore and Budge-Budge, all of which resulted in conviction. On the other hand, a prosecution instituted in the previous year failed in one town on the technical ground that it is the Municipal Commissioners and not the Chairman who can sanction prosecution under the Food Adulteration Act. As the Municipal Commissioners ordinarily meet monthly or even less often inconvenience is often caused by the necessity of obtaining their sanction to every prosecution. This inconvenience has since been removed by the passing of the Bengal Food Adulteration (Amendment) Act, V of 1925, by which the Chairman of municipalities have also been vested with power to authorize prosecutions.

13. Public Works.—The amount spent on public works rose from Rs. 10,28,484 to Rs. 11,39,602, the largest increase occurring under the head "Roads" which was contributed

by all the Divisions. The percentage of outlay on public works to the total expenditure varied from 2 in Bhola to 50.9 in Debbhatta.

Municipalities in Bengal have for some time past made a grievance of the fact that although their roads are seriously damaged by the ever increasing motor traffic they are unable under the existing Bengal Municipal Act to impose taxation on motor vehicles in spite of the fact that in municipal areas the owners of all other kinds of vehicles are required to take out licenses on payment of fees. In the Bengal Municipal Bill, 1925, power was accordingly taken for municipalities to tax motor vehicles but the motion for the introduction of this Bill was rejected by the Bengal Legislative Council at the last December session. As the grievance is a genuine and long felt one, Government have prepared and hope shortly to introduce in the Legislative Council a small Bill authorizing municipalities and other local bodies to tax motor vehicles kept within their jurisdiction.

14. Loans.—Loans amounting to Rs. 1,25,000 were granted to four municipalities, viz., Comilla (Rs. 45,000), Serampore (Rs. 60,000) Berhampore and Jessore (each Rs. 10,000). Altogether 40 municipalities were in debt to Government at the end of the year, their total liabilities amounting to nearly Rs. 35 lakhs.

15. Audit of Accounts and Embezzlement.—The accounts of almost all the municipalities were audited. Little attention is however paid by municipalities generally to remedy the defects and irregularities noticed in the audit reports. In this connection the Commissioner of the Burdwan Division observes:—

As a matter of fact practically nothing is done. The same old errors occur year after year, the reason being of course that the mistake occurs because supervision is lax. That more money is not defalcated seems to be more a matter of good luck than good management.

Embezzlement or misappropriation of municipal money occurred in Hooghly, Chinsurah, Barnipur, Halisahar, Kanchrapara and Dinajpur, but the amounts misappropriated were recovered and in the first two named municipalities the offenders were dismissed from service. In South Dum-Dum a suspected case of

temporary misappropriation by a collecting sarkar was reported in the audit note, but the matter is still under enquiry. The head clerk of the Noakhali Municipality was criminally prosecuted for misappropriating municipal money and sentenced to rigorous imprisonment of one month and to pay a fine of Rs. 200. The case of embezzlement detected during the previous year in Jamalpur was disposed of, the collecting sarkar having been sentenced to pay a fine of Rs. 200 and to suffer rigorous imprisonment for one day only.

There appears to be a tendency for embezzlement of municipal funds to occur more frequently than was formerly the case. Misappropriation of public money is a very grave offence, and where such offence appears to be established by the audit officer's investigation Government are of opinion that it is not sufficient for the Municipal Commissioners to punish the delinquent by dismissal or to rest satisfied with the refund of the amount which has been misappropriated. In the interests of public morality the offenders in cases, which appear to be capable of legal proof, should invariably be prosecuted criminally.

16. General Remarks. — *Burdwan Division.*—The Commissioner of the Burdwan Division on a general review of the working of the municipalities in his division observes that while there has been no advance there are signs of an awakening and a dissatisfaction with the bad management of the last few years. The Governor in Council endorses his view that a zealous regard for the public interest, manifesting itself in a careful supervision of both indoor and outdoor work is even more needed than more taxes, and this is called for from all concerned in the administration, from Chairman down to sub-overseer.

The improvement of water-works and construction of good pucca drains are the principal wants of Burdwan. Two oil engines are being erected for working the water-works pumps. In Kalna, kala-azar is reported to be gradually disappearing owing to the opening of hospitals in different parts of the subdivision for the treatment of the disease. If this view is well-founded, the results of the intensive work at Kalna are a happy augury for the anti-kala-azar campaign which Government hope shortly to initiate in all affected areas. It is

reported that there was also less malaria. The condition of the roads and the arrangement of street lighting in Katwa continued to be unsatisfactory. The Commissioners of the Asansol Municipality are now anxious to get water-works in the town, but they are confronted with financial difficulties. As regards the municipal administration in Bankura the District Magistrate remarks:—

Party faction prevails. Proper attention was not paid to the repair and cleaning of roads, privies and drains. The lighting arrangements are not also satisfactory. Collections in Bankura and Vishnupur were bad. This state of affairs was mainly due to the want of supervision on the part of the municipal executive.

The Magistrate of Midnapore reports that the best managed municipalities in the district were Tamluk and Ghatal both of which now have Swarajist Chairmen. The administration of the Chandrakona Municipality was inefficient and was marred by faction and party spirit. The general administration of the Midnapore Municipality was unsatisfactory and there was much discontent among the rate-payers. The financial position of the municipality which had been most unsatisfactory, was somewhat relieved by Government relaxing the conditions for the payment of the arrear instalments of the water-works loan and by a generous gift of Rs. 50,000 from the District Board towards the completion of the water-works scheme. A marked feature of the administration of the Hooghly-Chinsurah Municipality was the constant and repeated complaints of the partial or total failure of water-supply. The financial position of the municipality has steadily deteriorated. At the close of the year there were unpaid bills amounting to Rs. 32,386 against a cash balance of Rs. 10,681. The Commissioner of the Division remarks that this unsatisfactory financial condition was due to the utter laxity of control that prevailed. In Serampore, the collections appear to have improved a little, but a great deal yet remains to be done. The state of roads in this town requires special attention. In Rishra-Konnagar there was much friction between the municipal authorities and the Mills and in Bally strained relations between Wards I and II on the one hand and Wards III and IV on the other, stood in the way of the efficient administration of the municipality.

Presidency Division.—Mr. Cassels, Magistrate of the 24-Parganas, writes as follows as to the working of the municipalities in his district:—

A few municipalities in the industrial area are efficiently managed, tackle their problems energetically and are alive to the needs of a town population. At the other end of the scale there are many more, not so advantageously placed, some of them rather resembling overgrown villages, where a sense of civic pride and responsibility is confined to a few, where faction is not unknown and where in the sphere of practical municipal work, the prevailing note is too often one of lassitude and *laissez faire*.

The activities which deserve notice are mainly those directed to improve public health. The Naihati and Bhutpara schemes for water-supply have been worked out in detail and have been submitted to the Sanitary Board. Kamarhati has a scheme in view while certain other municipalities made progress in the sinking of tube-wells. The Titagarh sewerage scheme is still making slow progress and a scheme has been prepared for Kamarhati. An epidemic of small-pox which was more severe in the densely populated municipalities in the industrial centres was met by increased vaccination and other precautions. Little interest was on the whole evinced in the extension of primary education, but Budget-Budge should be mentioned as an exception.

The Magistrate of Nadia remarks that on the whole municipal affairs in that district "have been quiescent save in Santipur and Nabadwip where the interests of opposing factions create an unreal atmosphere of energy which is not actually beneficial to the public. The executives of these municipalities dissipate their energies in internecine strife. Yet it is just in these municipalities that no attention whatever is paid to the most elementary duty of any public administration—the provision of an adequate uncontaminated water supply." In Santipur the expenditure on water-supply amounted to Rs. 67 spent in repairs to a well. In Nabadwip out of Rs. 480 budgeted for water-supply only Rs. 29-7 was expended. The chief problem of the Krishnagar Municipality is its roads which are said to be "without any manner of doubt the worst roads in Asia". The Governor in Council is however glad to learn that the Municipal Commissioners are making a determined effort to improve them; they have taken a loan of Rs. 25,000 during the year 1925-26 for substituting stone metalling for *jhamu* and for the purchase of a steam roller. The Magistrate reports that the water-works of the town, though expensive, have proved beyond cavil of the greatest benefit to

the health of the town. Several municipalities, *viz.*, Santipur, Birnagar and Chakdaha present a very difficult sanitary problem. "All three are large areas comprising many deserted homesteads, abandoned tanks and tangled undergrowth—once the abode of a much larger population. Chakdaha and Santipur have given up making much show of fight against these conditions," but Birnagar is determined to stamp out malaria. There is a Palli Mandali in this place "which is determined, by jungle clearing, kerosenisation of tanks and sinking of tube wells, to rehabilitate the fortunes of this once beautiful town. The Samity is fortunate enough to have the services of several gentlemen who are experts in engineering and sanitation."

At Kusthia the Commissioners have a development scheme and have acquired land and constructed roads in advance of the growth of the town. This municipality is efficiently administered and shows commendable foresight and unanimity of opinion. The municipal administration of the Murshidabad district was efficient so far as municipal funds permitted. The health of the municipal towns was generally good. The Berhampore Municipality has made arrangements for the correct registration of births and deaths, and offers rewards to the staff for detecting omissions. The new Jessore Municipal Board has made a start. Kotechandpur continued to do excellent work while Moheshpur in the Magistrate's opinion "shows further deterioration." Good work was done by the Khulna Municipality. The town was visited by small-pox in an epidemic form, but the Municipal Commissioners took speedy measures to check the disease.

The Commissioner of the Presidency Division makes the following remarks:—

No striking advance was achieved in the administration of municipalities during the year under review. The marked difference between the standard of administration of the good and bad municipalities commented on in the previous reports continues, and since the transfer of the Cossipur-Chitpore and the Garden Reach Municipalities which were two of the best managed municipalities of the Division, the number of inefficient municipalities in the district of 24-Parganas now considerably exceeds the number of well-managed ones. As example of the former type may be cited the municipalities of Panihati, Rajpur, Tollygunge and Baraset. The realisation of

tax in these municipalities is very unsatisfactory while the cost of administration is heavy though the actual work done is very small. It is much to be desired that these Commissioners should realise their civic responsibilities and adopt coercive measures for the realisation of taxes without too much fear of unpopularity, and take more real interest in the affairs of the municipalities and adopt business-like methods in replying to correspondence and attending to audit objections. Nabadwip and Santipur are examples of municipalities which are rent by dissension and party feeling which prevent useful work being done in them. Krishnagar stands out as the municipality with probably the worst roads in the province. This municipality was handicapped on account of the water-works not being completed in time with the result that a large portion of the general funds had to be utilised for repayment of the loans taken for the water-works.

Dacca Division.—Mr. Drummond, Magistrate of Dacca, makes the following remarks as to the working of the municipalities in his district:—

In spite of good intentions the Commissioners of the Dacca Municipality were seriously hampered during the year by continued failure to realise the taxes due to a campaign of propaganda and injunctions engineered by an individual who received support and sympathy in his vendetta from a large section of the public instead of the disapproval which it merited. It is evident that not many of the rate-payers realise that the Municipal Board is their own creation, an extension of their own personality and that to attack it is suicidal. The Chairman, Mr. K. Nazimuddin, showed great courage, forbearance, and tact in dealing with a very unpleasant and difficult situation. He was ably backed by the Vice-Chairman. The most notable achievement of the Commissioners was the opening of three primary schools as an earnest of their desire to equip the whole city with free schools of this type. Certain extensions to the lighting and pipe-water system were also carried out.

The Narainganj Municipality is described in the *District Gazetteer* published in 1912, as probably the most efficient in Bengal. Though there are no very serious blemishes on the municipal administration it can no longer claim this proud distinction.

As regards the working of the municipalities in the district of Mymensingh Mr. Twynam observes as follows:—

The financial condition of the municipalities within this district indicates a remarkable absence of business ability. This characteristic appears to be due partly to inexperience and partly to the fact that Municipal Commissioners are usually busy men who have their own livelihood to earn. It is accentuated by the absence from most municipal boards of any technical knowledge or experience and encouraged by a spurious sentimentality which regards enforcement of

the provisions of sections 121-124 of the Municipal Act as a great hardship. It would seem that most of the above difficulties would disappear if municipalities had paid secretaries thoroughly acquainted with their work and of sufficient standing both to influence opinion and control the clerical staff.

The Governor in Council commends the above suggestion to all the municipalities in the Province.

As regards the municipalities in Bakarganj the Magistrate observes that on the whole they are doing their best with the resources at their disposal. The Barisal Municipality is taking special steps to deal with its heavy arrear demand.

Chittagong Division.—The Commissioner of the Division gives credit to the Municipal Commissioners of Chittagong for their various activities in spite of their financial difficulties. The special feature of the Comilla Municipality was the completion of its water-works. Noakhali is still under erosion on the northern side while on the east and south sides a large reformation is going on. The financial condition of the municipality is bad and there is no immediate hope of improvement. Other municipalities in the division are doing good work with the limited resources at their disposal.

Rajshahi Division.—The Commissioner of the Division observes:—

The Rajshahi Municipality has suffered much from party faction amongst the Commissioners. The water-supply project of the municipality is yet very incomplete and it is doubtful if funds will be found for financing it. The party faction in the Dinajpur Municipality was so strong that 5 Commissioners immediately resigned after election because their party could not get a majority. The municipality is in need of a loan to finance the project for construction of the Dinabazar bridge over the Karolla and the application has been recommended to Government. In Rangpur Municipality it is too early yet to say how far the education cess has furthered the cause of primary education. The finances of the Pabna Municipality show little improvement and it is doubtful if the municipality will be able to pay its share of the water-works scheme. In Bogra there have been complaints for the municipality's negligence of roads in the town. The work of the Darjeeling Municipality has always been up to the mark.

17. Conclusion.—The year under review has not seen any very marked improvement in the general level of municipal administration which continues to

be hampered by lack of funds. The incidence of taxation is still very low in many municipalities as the result of aversion on the part of Municipal Commissioners to increased taxation. Another regrettable feature of the administration was the marked disinclination of the municipal executive to adopt coercive measures for the timely realization of taxes of which more than Rs. 13 lakhs were allowed to fall in arrears. In certain municipalities again the administration was hampered by party spirit and faction. There are, however, in some towns signs of an awakening. Increased attention was paid by several municipalities to the improvement of public health and the spread of primary education.

The Congress or Swaraj party was successful in obtaining seats in some municipal boards. It cannot be said that there has in consequence of this been any marked change in the methods or spirit of administration in those municipalities and both Swaraj and non-Swaraj members appear to have co-operated in carrying on the administration.

The Bengal Municipal Bill which aimed at enlarging the scope of municipal work by the relaxation of internal Government control and by enabling municipalities to enhance their revenues, was unfortunately thrown out by the Bengal Legislative Council on the first reading in December 1925.

The names of the following Chairmen, Vice-Chairmen, and Municipal Commissioners have been specifically brought to the notice of Government by the Commissioners of Divisions on account of the good work done by them and the Governor in Council desires to express his appreciation of the public spirit shown by these gentlemen and of the valuable services they have rendered:—

Union Courts.

27. Any person wishing to bring a suit before a union court may appear before the court on a day fixed for its sitting and present a petition orally or in writing. He shall at the same time produce any document on which he relies that is in his custody.

28. The court shall then enter in the Register of Suits the name and address of the plaintiff or plaintiffs, the name and address of the defendant or defendants, the nature of the claim, the date and place where the cause of action arose, and the relief claimed. The court shall make a note of any document produced in the column of remarks.

29. The court shall then, after such examination of the petitioner as it considers necessary, proceed either under section 78 or under section 80 of the Bengal Village Self-Government Act, 1919.

30. If any defendant does not reside within the jurisdiction of the court, the summons may be served by registered acknowledgment post, the postage for which shall be paid by the plaintiff or it may be sent for service to the president of the union board in which the defendant resides.

31. If the defendant appears and applies for time either to proceed under section 81 of the Bengal Village Self-Government Act, 1919, or to produce evidence, the court shall fix a date for the hearing, but unless the defendant declares his intention to move for a transfer under section 81, he shall be called on to answer the petition at once, either orally or in writing.

32. When both sides are ready with their witnesses the court shall proceed to hear the case.

33. The petitioner shall have the right to begin, unless the defendant admits the facts alleged by the plaintiff and contends that, either in point of law or on some additional facts alleged by the defendant, the petitioner is not entitled to any part of the relief which he seeks, in which case the defendant shall have the right to begin.

34. The party having the right to begin shall state his case and produce his evidence in support of the issue, which he is bound to prove.

The other party shall then state his case and produce his evidence (if any) and may then address the court generally on the whole case.

The party beginning may then reply generally on the whole case.

35. The president or, with his permission, another member of the court may make a memorandum of the substance of the evidence in the Register of Suits.

36. The court may at any time permit the petitioner to withdraw the suit or to abandon a part of his claim with liberty to bring a fresh suit in respect of the part so abandoned, on such terms as to compensation to the defendant for expense and trouble incurred as the court may think fit.

On abandonment of the whole or part of a claim, the plaintiff shall pay the fee under section 90 of the Bengal Village Self-Government Act, 1919, in respect of the amount of the claim abandoned.

If a suit be adjusted wholly or in part by any lawful agreement or compromise, such agreement or compromise shall be recorded, and the court shall pass a decree in accordance therewith.

37. Decrees or orders of the court shall be entered in the Register of Suits and signed by all members of the court hearing the case.

38. All money payable under a decree shall be paid as follows, namely:—

(a) into the court whose duty it is to execute the decree, or

(b) out of court to the decree-holder, or

(c) otherwise as the court which made the decree directs.

Where any payment is made under clause (a), notice in writing or otherwise of such payment shall be given to the decree-holder.

39. Where any money payable under any decree is paid out of court or the decree is otherwise adjusted in whole or in part to the satisfaction of the decree-holder, the decree-holder shall certify such payment or adjustment to the court whose duty it is to execute the decree, and the court shall record the same accordingly after realizing the fees from him.

The judgment-debtor also may inform the court of such payment for adjustment within three months of the payment and apply to the court to issue a notice in writing or otherwise to the decree-holder to show cause, on a day to be fixed by the court, why such payment or adjustment should not be recorded as certified, and if after such notice the decree-holder fails to show cause why the payment or adjustment should not be recorded as certified, the court shall record the same accordingly after realizing the fees from the judgment-debtor.

A payment or adjustment which has not been certified or recorded as aforesaid shall not be recognized by any court executing the decree.

40. At any time within three years of the signing of the decree, the successful party may apply to the court for execution of the decree.

The court will then issue an order on the president of the union board, who will proceed to realize the amount as if it were an arrear of rate imposed under section 37 of the Bengal Village Self-Government Act, 1919.
